\$2.00 PER ANNUM

## TUXIS TRACK MEET ON THANKSGIVING DAY

Last week we announced that the first annual track meet of the Crow's Nest Pass Tuxis clubs would be held in Blairmore on Wednesday, November 10th. The date has since been changed to Monday, November 8th, Thanksgiving Day.

## DEMPSY-TUNNEY FIGHT PICTURES ARE AT BELLEVUE

The Dempsey-Tunney fight pictures are being shown at the Rex Theatre, Bellevue, this week end, and are attracting large crowds from all points in The Pass.

Mr. Cole received the exclusive exhibition rights to show the fight pictures in the Crow's Nest Pass, and they are being shown for three nights.

It did look serious at first, but quite a relief was experienced to find the unaccounted for member of the Fernie troupe peacefully reposing prior to departure for home.

To allow the members of the council an opportunity of attending "So This is London" on Monday night, the regular fortnightly session was set over to Monday next week.

Once more an editor has shown a weakness. Editor Bourinot, of the Richmond Record, Cape Breton, was married last week. Once again we have to tender our sympathy.

## DR. RICE TO PROBE HILLCREST MINES

Dr. George S. Rice, chief of the United States bureau of mines, has been engaged as expert adviser to the Alberta government's chief inspector of mines in an investigation of the Hillcrest mine, in which the recent explosion occurred.

The mine is now practically cleared and will soon be in condition for the investigation to begin.

A thorough examination of the mine, with a view both to discovering the cause of the disaster and how similar disasters may be avoided in the future, will be made, and in Dr. Rice the government considers it has secured one of the best consultants for the purpose in the country today.

## CROWS' NEST POSTMASTER FOUND DEAD ON TRAIL

E. H. Sparham, for many years postmaster and in business at Crows' Nest, was found dead on a trail leading south from his residence on Friday evening last, with a gun close beside him. Apparently he committed suicide.

Sparham was predeceased by his wife a few weeks ago. He is survived by one son, aged eighteen, and his parents, who reside in Macleod. He was fifty-five years of age.

The remains were taken to the morgue at Natal, and interment took place on Monday afternoon.

## ELKS AT HOME TO VISITORS IN STAG PARTY

The Elks were favored with a visit from members of Fernie, Coleman, Pincher Creek and Macleod lodges at their regular meeting last night. Following the meeting, a social program was entered into, which included songs, recitations, choruses, speeches, etc., by local and visiting members. Among those taking part were J. R. Gresham, H. Pinkney and D. Martin, of Blairmore; W. Thomas and T. Shorthouse, of Fernie; and the Fernie Troupe. J. F. Royle rendered several violin selections and Ed. Royle presided at the piano.

Principal among the visitors were Mayor Bossenberry, exalted ruler of Pincher Creek Lodge; J. Carvath, exalted ruler of Fernie Lodge; Ward Thomas, past exalted ruler of Fernie Lodge and district deputy elect of East Kootenay; and A. E. M. Morrison, exalted ruler of Coleman Lodge, all of whom extended greetings to Blairmore Lodge. J. E. Gillis, exalted ruler, and Robert Gray, past exalted ruler of Blairmore Lodge and district deputy of Alberta District No. 1, extended a cordial welcome to the visitors.

An invitation was received to pay a visit at some future date to Macleod and Coleman. Already members of Blairmore and Coleman lodges have been the guests of Fernie and Pincher Creek, and it is planned to continue the practice of inter-lodge visitations.

## POPPY DAY

Calgary, Oct. 12th, 1926.

The Editor:  
Dear Sir—  
National Poppy Day Campaign  
Armistice Day—November 11th  
Over 100,000 poppies are to be disposed of for the above in Alberta and, as Editor of the local newspaper, we seek your co-operation to assist us in making this tribute—wearing a poppy on Armistice Day—adopted universally. Besides being of public interest it is of a charitable nature.

The objects of the campaign are four fold.  
Primarily, it is to honor our fallen soldiers and show that we as citizens do not forget. This tribute is paid on this day by all nations of the Allies.  
Secondly, the greater display of poppies means increased employment to our disabled soldiers in Alberta who make up these poppies. All poppies sold in Alberta by the Legion have been made in Alberta.

Thirdly, whatever organization acts for the Legion, can raise a fund which can only be used for local relief or charitable purposes.

Fourthly, a small profit is made by the Legion which helps in a small measure to reduce the Legion's expenses in handling the hundreds of adjustment cases of deserving disabled, widows or dependents.

"Thanking you for this co-operation on behalf of the Canadian Legion in Alberta.

Yours faithfully,  
ART WARELYN,  
Provincial Secretary.

According to figures issued by the Commonwealth statistician and actuary, the population of Australia has passed the six million mark, being now 6,017,210, an increase of 581,476 since April, 1921.

The second child of Mr. and Mrs. Milton Robinson has been admitted to hospital at Hillcrest for an appendicitis operation. Little Ethel was removed from the hospital to her home last week end.

Don't forget the annual bazaar of the ladies of St. Anne's church, to be held in the Lodge Hall on Wednesday, November 24th. Fancy work, home cooking, candy, fish pond. Tea will be served.

## CATHOLIC LADIES' ANNUAL BAZAAR NOVEMBER 24

The ladies of St. Anne's church will hold their annual bazaar in the Lodge Hall on the afternoon of Wednesday, November 24, from 3 to 6. There will be a Fish Pond for the kiddies. Whist, drive and dance will follow, commencing at 8 o'clock.

## BLAIRMORE HAS LODGE OF MOOSE

The fruits of the mission of Mr. A. J. Ingram, deputy grand regent and district supervisor for Alberta, into this district were realized fully, when on Sunday afternoon last upwards of fifty candidates were initiated into the Moose of The World and the Blairmore Lodge No. 105, Local Order of Moose, was duly instituted.

The ceremonies took place in the local Lodge Hall, when about thirty members of the Order from Lethbridge and other points were present to assist. About half the candidates were Blairmores, the balance from Coleman.

Following the initiation ceremony, the institution of the local lodge took place. Officers were chosen and installed as follows:

Past Dictator—Bro. Joseph Amato.  
Dictator—Bro. Joseph Chaput.  
Vice-Dictator—Bro. Isaac Rae.  
Prelate—Bro. W. B. Munton.  
Secretary—Bro. Ralph W. Perry.  
Treasurer—Bro. Reuben Carnahan.  
Sergeant-at-Arms—Bro. Garfield Picard.

Inner Guard—Bro. Edward Thibodeau.

Outer Guard—Bro. Melvin Kylla.  
Trustees—Bros. Duncan C. Drain, Edmond Picard and Mike Panik.  
Dates and time of meetings have not been decided upon.

Following the institution, a social hour was spent.  
The Coleman lodge will be instituted on Sunday next.

## CHURCH OF ST. THERESA

The Catholic people of Hillcrest began with enthusiasm on Sunday last their Novena to the "Little Flower," Patron Saint of their new church. There will be morning and evening services for nine days and instruction for children every afternoon.

On Tuesday night, Rev. A. Harrington, new pastor of Blairmore, assisted the pastor of Hillcrest. On tonight the Rev. N. McCormick will officiate.

Bill Smith had spent part of his leave in France and was fond of airing his tiny knowledge of French. On leaving his friend, Bill Brown, he said, "Au revoir!"

"What do you mean?" asked Brown.

"I mean good-bye—an revoir is good-bye in French."

"Oh, I see; well, prussic acid to you," said Brown.

"What do you mean, Bill?"

"That means good-bye in any language."

## LOCAL L.O.O.F. ANNIVERSARY

Local Oddfellows will celebrate the sixteenth anniversary of the institution of Blairmore Lodge No. 68 following the regular meeting of the lodge on Tuesday, night next. Invitations have been sent to Coleman and Bellevue members to be present. The lodge session will convene at 7.30, and the social programme will start at 8.30.

October the 25th, sixteen years ago, the local lodge was organized. The lodge has since that time experienced many ups and downs, but is still going strong.

## ANNUAL MEETING OF A.A.H.A.

According to a bulletin issued from the office of the hon. secretary-treasurer, the annual general meeting of the Alberta Amateur Hockey Association will be held at the Elks' hall, Lacombe, on Monday, November 8th, at 1.30 p.m.

Each club is entitled to one representative at this meeting. Delegates must be members of the clubs they represent, except as provided by clause (g) of By-law 7, that one delegate may represent all the clubs of any one village, town or city, provided that the credentials for such delegates are mailed to the secretary not later than November 1st. All credentials must be signed by the president and secretary of the club concerned and must be filed prior to the opening of the meeting. All fees and fines (if any) must be paid before a delegate can get for his club at the meeting. Credentials may be forwarded to the secretary at Calgary or to the Adelphi hotel at Lacombe.

The following proposed amendments to the constitution and by-laws will be considered:

By-Law 26 to have included: "In exhibition games, a fee of \$3.00 be charged when a senior team plays, \$2.00 when an intermediate team plays, and \$1.00 when a junior, juvenile or midget team plays. The rate charged must always be the fee payable by the higher classed team playing in the game."

By-Law 4 to be amended, the following added: "The immediate past president to be a member of the executive committee, with power to vote and be treated the same as other members of the executive."

Amend clause (h) of By-Law 1, to read: "No commercial club, league or association representing commercial organizations, or bearing the name of a commercial organization, can be other than associate members, except by permission of the executive committee; nor can players signed and registered with fully affiliated clubs of the organization, be permitted to play in leagues or league games of any of the aforementioned."

Add clause (f) to By-Law 5, to read: "The president and secretary shall represent the association at meetings of the Alberta Amateur Union. The secretary shall represent the association upon the registration board of the Alberta Amateur Union."

## HALLOWEEN WHIST DRIVE

Greenhill Temple, Pythian Sisters, will hold their next whist drive in the Lodge Hall on Friday night of next week, October 29th. At this drive, the draw for the luncheon set will take place. A good attendance is expected. Whist will start promptly at 8.

## THESE BARGAINS ARE GOOD ON FRIDAY AND SATURDAY ONLY—

## 99c - Specials - 99c

3 lbs Cresta Creamery Butter .....	99c

## FINAL CROP PAYMENT TO BE MADE BY POOL

Winnipeg.—A total of \$4,850,000, representing a final payment of five cents per bushel on the 1925-26 crop, will be paid to farmers in Alberta, Saskatchewan and Manitoba wheat pools. It was announced following sessions of the central selling agency at the Winnipeg offices.

One dollar per bushel was the initial payment made for the 1925-26 crop year, and this was followed by an interim payment of 20 cents per bushel and another interim payment of 20 cents, making with the five cents previously given, a total payment of \$1.45.

J. A. McPhail, president of the Central Selling Agency, has issued the following statement:

"The final wheat pool payment for the 1925-26 crop year is being made from the three provincial offices. The average central selling price for the year on one Northern wheat, heads Fort William, after carrying charges and administrative costs have been deducted, is \$1.45 per bushel."

"A total of \$4,850,000 is being returned from the central office for disposal by the three provincial pools."

"Provincial administrative expenses, elevator and commercial reserve deductions, etc., will have to be taken from the amount returned to each province before distribution is made to the grower."

The officers of the board were re-elected: Mr. McPhail, as president; H. W. Woods, Edmonton, as vice-president; and E. B. Barclay, Pelly, as secretary.

Measra, McPhail, Wood and Colin H. Burnell were re-elected the executive.

It was announced that statements will be issued in due course, by each of the wheat pools with regard to the final payment for the 1925-26 crop year.

## May Accept New Appointment

Hon. A. P. McNab Offered Place on Saskatchewan Local Government Board

Saskatoon.—Hon. A. P. McNab, senior member for Saskatoon City, Minister of Public Works, and cabinet minister of longest service in Saskatchewan, announced that he had been offered a place on the local government board in Saskatoon. He said that he would have to decline the offer, as he was already a member of the board.

Mr. McNab said he had been giving the offer consideration for a month and an announcement as to his decision will be made soon.

Should Mr. McNab resign his seat in the legislature, as will be necessary if he accepts the appointment to the local government board, it will necessitate a by-election in Saskatoon City, and will, for the time at least, leave this city without cabinet representation.

The other members of the Local Government Board are: S. P. Grosch, and J. N. Bayne, both of whom hail from Southern Saskatchewan. There has been for years a feeling in Saskatoon and Northern Saskatchewan, that at least one member of the local government board should be from the northern half of the province.

## Competitive Cable Rates

Would Establish Direct Service to Canada For British News

Ottawa.—"If the Governments of this Dominion and the United Kingdom would only see their way to establish a competitive rate on cables between London and this country, you would have to this country a direct service for British news," declared Sir Rodrick Jones, chairman of Reuters' News Agency, in the course of an address before the Canadian Club.

The establishment of a competitive cable rate between London and Canada, which would enable a greater volume of British news to be brought to this country direct instead of by New York, would, stated Sir Rodrick, be a fine act of public policy and a very beneficial one from an imperial point of view.

Canadian Ambassador's Question

London.—With a view to correcting an apparently wrong impression in Canada, The Morning Post says that there can be no possible objection to the appointment of a Canadian diplomatic resident in Washington to conduct Canadian business with the United States. Such an appointment, however, the paper states, is an innovation which suggests various possibilities in regard to the whole question of the empire's foreign policy. It is this aspect that arouses discussion.

W. N. U. 1651

## Stay Of Execution

Russell Scott Is Again Saved From The Gallows

Chicago.—Forty-eight hours before the time set for his execution and for the third time in 15 months, the hanging of Russell Scott for the murder of Joseph Maurer in a drug store holdup was averted.

The state supreme court of Springfield ordered a stay until it can review the proceedings in his last sanity hearing, in which he was found sane after he had spent a year in a state asylum.

The man, who was a vaudeville actor at 20, a Canadian corporation head at 30, and a holdup man at 32, seemed little moved at the news of his new lease of life. So many times he has been jerked from the gallows back to temporary safety that the methods by which his execution has been four times postponed since 1924 have become largely incomprehensible to him.

From here he will continue his route by steamer to New Zealand and thence to South America with the intention of traveling the entire American continent from South to North on his whel.

From the northern part of the United States or from Canada, Thornfield will proceed to England and from there back to Denmark.

Since starting from Copenhagen, over a year ago he has pedaled through Europe, China, Japan, and Java. He expects to finish his unique world tour in Copenhagen by 1925.

Canada Holds Enviable Place

Stands Second in World in Development of Telephones

Montreal.—"Canada stands second in the world in telephone development," declared P. A. McFarlane, Montreal, president of the Telephone Association of Canada, in his annual report presented at the opening session of the sixth annual convention of the association, which took place here.

"In 1925 there was 1,072,454 telephones in service in Canada, against 925,000 in 1921, which is an increase of 107,864," he continued.

"The total investment increased from \$168,678,229 in 1921 to \$135,884,378 in 1924."

"The question of transcontinental long distance telephony is still progressing."

Will Convene In December

Date of Sitting of B.C. Legislature Is Announced

Victoria.—British Columbia Legislature will be summoned for the annual session, December 16 and will then adjourn until January 10. These dates have been announced by Premier Oliver after they had received the final approval of the cabinet.

The proceedings of December 16 will last less than an hour, it is expected. The House will be called into session and after the reading of the speech from the Throne, outlining the program of the session to follow, the members will disperse until after the New Year.

United States Is Criticized

Pointed Place Placed on Wall of League of Nations Building

Geneva.—Criticism of the United States was voiced in a placard which was found pasted on the marble slab in the wall of the League of Nations building which commemorates the memory of Woodrow Wilson as founder of the league.

The placard read: "In considering him as the founder of the League of Nations, President Wilson should be considered in a personal sense and not as president of the United States. The American people have done nothing to deserve that their president should be designated as the founder of the league."

Mussolini Favors Operation

London.—A Geneva dispatch to The Daily Express says that Dr. Sauerbruch, eminent Bavarian surgeon, has been summoned by telegram to consult with medical men in Rome, with reference to a proposed operation on Premier Mussolini. The Berlin newspaper Bund says that Dr. Sauerbruch has left Munich for Rome.

Advertising Canadian Apples

Stimco.—For the use of the delegates attending the Imperial Conference in London, 100 boxes of new apples have been shipped from here. It is believed Ontario is the only province which has obtained a special Canadian apples. They were sent under Provincial Government auspices.

## May Take Dispute To Higher Court

Alberta Act Fight May Go to Privy Council

Winnipeg.—The Ottawa correspondent of The Tribune says:

The Department of Justice is taking steps to proceed with the reference to the Supreme Court in regard to the constitutionality of the Alberta Autonomy Act insofar as it relates to school funds and school lands. The case, however, will not come up before the winter sittings of the court unless a special hearing is arranged meanwhile.

It is considered very improbable that the projected legislation returning to the province its natural resources will be proceeded with until the court decides on this question and if, as is possible, judgment is appealed to the Privy Council by one side or the other further delay would seem likely.

## Governor-General At Work

Arrives at Office at Parliament Buildings Promptly at Eleven

Each Morning

Ottawa.—The office of His Excellency the governor-general in the east block of the parliament buildings is to be remodelled. Under Lord Bynoe's regime the offices were not used very much and most of the official business was carried on at Rideau Hall. Lord Willington appears at the east block promptly at eleven o'clock every morning and spends some time there signing orders-in-council and carrying on his executive work.

It is understood that while the offices are being decorated Lord Willington will use the prime minister's office. Hon. J. A. Robb, while acting prime minister, used his own office in the finance department in the same building.

Noted English Scholar Dead

Dr. Abbott Was Most Famous Headmaster of City of London School

London.—Rev. Dr. Evelyn Abbott, who was the most famous headmaster of the famous City of London School where he possessed and whose profound learning had an almost overpowering influence upon serious students of all ages, is dead after having been bedridden for seven years. He was in his 88th year.

Born in London and educated at the City of London School and Cambridge University, Dr. Abbott was assistant master of King Edward's School, Birmingham, and assistant master of the City of London School in 1885 and continued in this position until 1889.

He was elected preacher at Oxford University in 1877. He was honorary fellow at St. John's College, Cambridge University, 1912, and fellow of the British Academy 1912.

Find Gold In Volcano Dust

Russian Peasants Hired Farms Destroyed by Recent Eruption

Berlin.—Working day and night as they pan gold from the dust of a recent volcanic outbreak, peasants of Kertch, Russia, on the Sea of Azov, are trying to get their farms that were destroyed by a volcanic eruption. When a supposedly extinct volcano near Kertch discharged lava and volcanic dust recently the peasants fled in terror.

Upon returning they found that the contained appreciable quantities of gold. Thousands of them immediately sought to gain riches from what had been discharged.

Extension of the work past Kertch Rapids and any possibility of the line being diverted to Port Churchill, as the Kertch is the last point at which this can be done.

About 1,100 men are at work on the road and most of them are likely to be kept at work all winter clearing the right of way, etc.

About 600 feet of trestle work on the north side of Kertch Rapids is being repaired with new timbers at once and as soon as this is done the pioneer gang will continue laying rails to the Limestone, on the existing grade which is stated to be in good condition along this stretch.

Extension of the work past Kertch Rapids and any possibility of the line being diverted to Port Churchill, as the Kertch is the last point at which this can be done.

Tourist traffic throughout the world has grown to such proportions that it is recognized as one of the greatest revenue producers in the world; and luxurious modes of travel have gone on apace. Bearing this out to a marked degree, was the Norwegian Cruise conducted this summer by the British and Continental Touring Club of London, which had under charter for the better part of a month, the Canadian Pacific liner Montclair.

When this private cruise through the fjords of Norway was organized, the directors of the club sought for a mode of travel whereby their members

could travel in the utmost luxury and independence. To this end the Montclair was taken from her regular trans-Atlantic run, and placed at the disposal of the British club. Sailing from Limerick, the Montclair sailed through the grey waters of the North Sea to Malmö, the first stopping point in Norway. Malmö, Sweden, Helsingfors and Bergen were among the many picturesque Norwegian fjords for which Norway is famous.

The photograph shows the Montclair anchored in the quiet waters of Malmö, while the party were paying a short visit.

## Created a Viscount

Lord Bynoe of Vimy

London.—The Canadian Press has learned from an unofficial but authoritative source that Baron Bynoe of Vimy had been created Viscount.

The former governor-general of Canada was received by the king to day and he and Lady Bynoe later had lunch with their majesties.

The retired governor-general, who is 64 years of age, was created the first Baron Bynoe of Vimy in 1919, choosing the title in commemoration of the exploits of the Canadians in capturing Vimy Ridge while under his leadership. He commanded the Canadian Army Corps in France for a year. Baron Bynoe holds many honors. He was made K.C.M.G. in 1915; K.C.B. in 1916; G.C.B. in 1919 and G.C.M.G. in 1921.

Solution For Canada's Population Problem

Providing For Youth Already Here Says Ontario's Farmers

Toronto.—The solution of Canada's population problems should be found not by expensive immigration schemes directed toward the South of Europe, but by providing opportunities for the youth already in the country and for selected ones prepared to emigrate from the Mother Land, Premier G. H. Ferguson declared in an address to the young men's section of the Young Men's Christian Association here.

"I do not think any boy is a delinquent," the Premier said. "Their errors are largely due to environment and can be corrected by providing improved surroundings."

Two British Cruisers Visit Philadelphia

Are Paying Official Visit to Sequel Centennial Exposition

Philadelphia.—Two fast cruisers of the British navy—H.M.S. Calcutta and H.M.S. Capetown, arrived at the Philadelphia Navy Yard, to pay an official visit to the Sequel-Centennial Exposition.

The ships are under the command of Vice-Admiral Sir Walter Cowan, second in command of the Royal Navy. After an official welcome at the navy yard, Sir Walter, accompanied by his staff, motored to the city hall, where he was greeted by Mayor Kendrick.

ASK FOR HIGHER TARIFF ON FRUITS AND VEGETABLES

Ottawa.—The Canadian Horticultural Society wants a seasonal tariff on fruits and vegetables coming into Canada from the United States and at a private sitting of the tariff board they presented their argument through L. F. Burrows, secretary-treasurer. Mr. Burrows stated a memorandum stating that from a survey of conditions in the horticultural areas, the farmers are not prosperous and production has ceased because of lack of prosperity. He gave statistics to show an increasing importation of fruits and vegetables that are produced in Canada as well as of those that are not produced here. The increased importation of the former in 1925 exceeded by \$17,592,211 what was imported in 1921. In the fiscal year ended March 31 last, the imports were \$12,613,950. This, it is calculated, represented the production of 6,807 farms and enough to provide work for 42,000 people.

The proposition put forward was for a sliding scale of duties on fruits and vegetables which would be imposed just before the Canadian product comes on the market so that the appetite of consumers will not have been satisfied beforehand. The present duty is on all valorem basis and instead of this a specific duty is suggested of two cents a pound on cherries all the year, two cents a pound on peaches, July 20 to October 31, one cent on pears, July 31 to December 31, one cent on apricots, all the year, three cents on strawberries and raspberries, in June and July, three cents a pound on canteloupes and muskmelons, July 31 to December 31, three cents each on other melons, one-half cent on cranberries and 30 cents a box on apples, all the year.

In the vegetable list, the seasonal tariff suggested covers 26 different varieties, including two cents a pound on tomatoes from June to December, two cents on cauliflower May 15 to November 20, three cents on peas, May to September, one and a half cents on lettuce all the year and two cents on cucumbers, May to November. Before the board makes any recommendation to the government there will be a public hearing at the other side that compares the dealers and consumers.

May Sue Ex-Crown Prince

Property Belonging to State Was Removed From Hohenzollern Castles

Berlin.—Removal from Hohenzollern castles and palaces in Berlin of art works valued at from three to four million dollars, and their discovery later in the hands of a local art dealer, may lead to prosecution of the former Crown Prince of Germany, according to press reports.

The property, which was supposed to belong to the state after the overthrow of the monarchy, includes the Watzau painting "The Dance," valued at three million marks, a portrait of the Crown Prince and his wife, and two marble vases which formerly belonged to Madame Pompadour.

Heavy Wheat Yields

Saskatoon.—Which district of Saskatchewan holds the record yield for 1925? Can any place beat Watson's?

Gutland, SE-30-37-73, threshed 420 bushels of Marquis wheat from six acres of new breaking, an average of 70 bushels to the acre. The seed was extra good and raised on his own farm. Fred Whittle, NE-14, 29-37-17, threshed 21 bushels of wheat from seven by 90 rods of land getting approximately 60 bushels to the acre.

Importation of Arms Forbidden

Mexico City.—For the purpose of preventing arms and ammunition from reaching bandits, revolutionists and anti-government elements, President Calles issued a decree forbidding the importation of rifles, pistols and cartridges.

## BRITISH-ITALIAN TREATY SUBJECT OF CRITICISM

Geneva.—Declaring the Anglo-Italian treaty regarding the recovery of economic influence in Abyssinia, regarded the past as a threat against territorial integrity, which under article ten of the covenant, Great Britain and Italy are bound to respect, Ras Tafari in reply to the League of Nations note for further information has asked Secretary General Sir Eric Drummond to deposit in the league register the Abyssinian documents along with the Anglo-Italian treaty.

Repeating his previous arguments against the Anglo-Italian agreement, Ras Tafari says, "The imperial Abyssinian government very naturally is troubled on learning that two great powers have come to an understanding on their part of action toward a friendly country, which with them is a member of the League of Nations without informing that country first. We interpret this as an indication of their intention to combine and exert economic advantages if the imperial government should consider that the interest of Abyssinia dictated that those advances should be withheld."

"As thus interpreted the Anglo-Italian pact is incompatible with the terms of the covenant, since it constitutes an indirect threat against the political territorial integrity and the political independence of Abyssinia, which under article ten Great Britain and Italy have undertaken to respect."

"Our view is that under article twenty of the covenant no such agreement, no agreement, but as they, of course, had no intention of violating that article their agreement could not have legal force; consequently it is null and void."

Ras Tafari then recapitulated Sir Austen Chamberlain's assurance, in the House of Commons, that there were no such motives, repeating directly the foreign minister's words that it was his intention to have Abyssinia's interpretation made part of the League of Nations' official treaty records.

Subsidized Rate On Coal

Reported That Federal Government Will Pay \$2 a Ton on Alberta Coal

Toronto.—An Ottawa staff special dispatch to the Globe says, under date May 12, that the federal government is prepared to subsidize to the extent of \$2 per ton the shipment of about 4,000 tons of Alberta coal to Ontario. Hon. Charles Stewart, Minister of Mines, is reported to have replied to the federal government's proposal which would make Alberta coal available to Ontario consumers at \$11 per ton, plus \$2.50 the local dealers' charge for distribution. The cost of the coal at the mines is, roughly, \$1 per ton, and the freight rate to Ontario points is 99 per ton, \$2 of which the Dominion Government is prepared to pay.

"The cost of distribution in Ontario villages is \$2.50 per ton, which includes cartage and delivery, so that the total cost of a ton of Alberta coal delivered in the Ontario consumer's car is \$13.50, as compared with about \$16 for Pennsylvania coal."

May Sue Ex-Crown Prince

Property Belonging to State Was Removed From Hohenzollern Castles

Berlin.—Removal from Hohenzollern castles and palaces in Berlin of art works valued at from three to four million dollars, and their discovery later in the hands of a local art dealer, may lead to prosecution of the former Crown Prince of Germany, according to press reports.

The property, which was supposed to belong to the state after the overthrow of the monarchy, includes the Watzau painting "The Dance," valued at three million marks, a portrait of the Crown Prince and his wife, and two marble vases which formerly belonged to Madame Pompadour.

Heavy Wheat Yields

Saskatoon.—Which district of Saskatchewan holds the record yield for 1925? Can any place beat Watson's?

Gutland, SE-30-37-73, threshed 420 bushels of Marquis wheat from six acres of new breaking, an average of 70 bushels to the acre. The seed was extra good and raised on his own farm. Fred Whittle, NE-14, 29-37-17, threshed 21 bushels of wheat from seven by 90 rods of land getting approximately 60 bushels to the acre.

Importation of Arms Forbidden

Mexico City.—For the purpose of preventing arms and ammunition from reaching bandits, revolutionists and anti-government elements, President Calles issued a decree forbidding the importation of rifles, pistols and cartridges.

## To The Land of the "Midnight Sun"

Tourist traffic throughout the world has grown to such proportions that it is recognized as one of the greatest revenue producers in the world; and luxurious modes of travel have gone on apace. Bearing this out to a marked degree, was the Norwegian Cruise conducted this summer by the British and Continental Touring Club of London, which had under charter for the better part of a month, the Canadian Pacific liner Montclair.

When this private cruise through the fjords of Norway was organized, the directors of the club sought for a mode of travel whereby their members

could travel in the utmost luxury and independence. To this end the Montclair was taken from her regular trans-Atlantic run, and placed at the disposal of the British club. Sailing from Limerick, the Montclair sailed through the grey waters of the North Sea to Malmö, the first stopping point in Norway. Malmö, Sweden, Helsingfors and Bergen were among the many picturesque Norwegian fjords for which Norway is famous.

The photograph shows the Montclair anchored in the quiet waters of Malmö, while the party were paying a short visit.

## AN EXAMPLE OF CHARACTER

To know how women have developed character since the cave days, read how Juliette Tutu, Eskimo mother, fought and killed her husband on a lonely little island off the coast of Labrador.

The Newfoundland court acquitted Mrs. Tutu when she told how, to protect her children, she stabbed her Eskimo man time after time with a sheath knife, then added his body with bullets from his own rifle. The husband, Ephram, Mrs. Tutu said, was going to kill the baby. She begged him to wait till morning. He wouldn't, so for him the morning never came.

Over a period of 500,000 years men have been improved by knowing that the lady in the cave with them would stab them or crush their skulls if they abused the children.

Before Juliette Tutu succeeded in killing her husband, he had knocked her down, broken one of her arms and inflicted wounds from which she was bleeding freely.—Los Angeles Examiner.

## GIANT LIZARDS REACH U.S.

Two giant lizards, survivors of the "gray dragon" of prehistoric times, arrived at New York recently on the Cunard liner Aquatania. One is eight feet long, weighs 200 pounds and has a body as thick as a man's, covered with a close protective armor. These great saurians, long sought by zoologists, were captured by Douglas Burden trustee of the American museum of natural history, on the island of Komodo in the Malay archipelago.

The likeness of the "dragons" has been blazoned on the flag of China for four thousand years. The big lizards have red forked tongues and sometimes make a loud hissing noise like escaping steam just as their fire-breathing ancestors did. Their legs are short and stubby and each foot has four claws. Their tails are spiked.

The discovery and capture of the two "dragons," which are entirely carnivorous, is one of the most important zoological finds of modern times, scientists say. They are the only ones in captivity.

## SAM DESCRIBES

## DE OTTERMOBILE

De ottermobile is tak plac de horses an woggan. Day get so many of it on de United States mos all de horse is put on de bums. Good many peoples wat hav some houses for liv in dont get some now, caus he sole it so for buy som ottermobile. Som ottermobile dont was cos much an som of it is mor covative. De firs ottermobile was get up some ware about nineteen or eighteen year ago but is jes an experience. Sine de firs one, day mak her better every days, an de ones wat is going mak tomorrow is de bes one. De ottermobile is mak out of mos everything and de only mans wat kno jes how many piece he get on his cars is de ones wat hav som smash ups. Nobody is know who is mak de bes ottermobile, but de bes way for fine out is wrote som letter on pos card, an sen it on top de factory ware de ottermobile is bes one. You dont belief it, mak som try. De ottermobile is good ting for man wat dont get something for de caus he goin hav plenty tam for fix it. De man wat enjoys his car de bes is de man wat sleep de mos, caus he dont hav so much tam for tink about it.

INCOMPREHENSIBLE ACTION  
BY ATTORNEY-GENERAL

Two young men, residents of Calgary, main contributors bank bills and passed some of the bogus money in Vancouver.

They were caught and, on pleading guilty, were sentenced to six years in a British Columbia jail.

Apparently the attorney-general of Alberta did not think six years in jail was sufficiently severe as a punishment.

Accordingly, he initiated habeas corpus proceedings and had the prisoners released and brought back to Alberta for trial on more serious charges.

Six years in jail is ample punishment for these misguided young men. The Alberta attorney-general's action should be generally condemned.

Six years in jail is a longer term than was given the wreckers of the Home Bank, who wrought widespread misery in Canada.

The Winnipeg crook who defrauded scores out of their life savings did not get such a severe sentence.

An auto driver, filled with booze, ran drive over and ran a child, and get off with lesser sentence than six years in jail.

These young men have been sufficiently punished. The Alberta attorney-general is exceeding the demands of justice.—Bassano Mail.

RED CROSS MANDATE FROM  
THE LEAGUE OF NATIONS

The annual appeal of the Canadian Red Cross is once again before the public, who are asked to express their interest in the humanitarian work of the society in the practical way of joining as members, and by contributions in cash. Although nearly eight years have passed since Armistice, and in spite of the fact that Red Cross has been functioning vigorously during the whole of the time, there are still some people who have but a hazy idea of what Red Cross is all about, and where the money goes.

The head office of the society has met that need for information in an excellent little pamphlet, which presents concisely the aims and services of the organization.

To quote this leaflet: "Red Cross was not ended when the bugles blew 'cease fire' at the Armistice." At the Versailles conference it was determined that organized Red Cross societies could give further invaluable aid to sick and suffering humanity. In consequence, the covenant of the league of nations includes this article, XXV: "The members of the league agree to encourage and promote the establishment and co-operation of duly authorized voluntary national Red Cross organizations having as purposes 'the improvement of health, the prevention of disease, and the mitigation of suffering throughout the world.'"

The Canada Red Cross society is striving to fulfil this obligation, and asks the citizens to endorse its efforts by enrolling themselves as members.

Premier Ferguson, of Ontario, announces his government's intention of appealing to the electors on December 1st on a policy of government control of the sale of liquor.

The Allen Players were accorded a hearty reception here on Monday night, this being their first visit to The Pass for a number of years. Verna Felton proved to have lost none of her former popularity as an entertainer and a stage artist of the highest order. Throughout, "So This is London" was a scream, and every character proved a fit and a hit. It is the first real opportunity the people of this district have had for a number of years to let loose on a real honest-to-goodness laugh and many are only now showing signs of recovering from cracked sides. From all points along the itinerary of the Allen Players we hear of the same brand of reception and pleasure. Mr. Allen promises to return this way at a later date in another new and mirth-provoking play.

CANADA RUN PLAN  
BRANDED FLAT FAILURE

Here is the finding of a special research secretary sent to Canada by the Methodist Episcopal Church of the United States to enquire into the workings of our provincial government control liquor systems, most of which has been branded as false by the Modern League of Canada.

Summarizing the conclusions resulting from the survey, the board says:

Government control in Canada has meant:

An increased consumption of liquor. Greatly increased use of alcoholic liquors by young people and women.

A swollen liquor bill.

A great economic loss, which has altered prosperity and acted as a burden upon the general population.

Increased vice and crime, imposing upon the government expenses which have burdened the taxpayers.

A corruption hitherto unknown in Canada.

An illicit trade as great as that under any prohibition law.

The system of government control in Canada is a failure, the statements add. Under it, all of the evils of illicit traffic in the United States are present, plus the evils of government protected traffic as vicious in principle and practice as was the saloon system in the United States.

The survey of the Methodist board was undertaken because of the recurring proposals in this country for the substitution for the present federal prohibition of the so-called Quebec system of government sale and regulation.

Operation of the Quebec system is reviewed at length with the conclusion that it has resulted in "an enormous increase in the consumption of liquor by young people," increased drunkenness, an increase in illicit manufacture and sale of liquors and "fraternal" vice condition.

To support these conclusions, the board quotes from the newspapers, clergymen and the celebrated report of Judge Coderre, of Montreal, which figured rather extensively in the Senate wet and dry hearings early this year.

Comparing conditions in Ontario with those in Quebec when Ontario was operating under a prohibition law, the board said:

The experience of Ontario with prohibition was the same as that of the various American states, the board asserts. Property increased, labor was more productive, drunkenness and crime fell off and the general health was greatly improved.

Turning to conditions in British Columbia, Manitoba and other provinces, the board declares government control has been more effective than in Quebec.

The brewers who are asking a monopoly of the intoxicating liquor trade in the United States, it asserts, are as troublesome there and elsewhere as they are in the United States.

Temperance authorities in the province may submit figures showing the amount of money used in the drink evil—but how on earth can they keep check on the amount of money spent in connection therewith in taxi fares between the dry (?) community and the place where licensed beer shops or vendor stores exist?

Members of the A. F. & A. M. are lead in their praise of the very excellent supper served them at Coleman on the occasion of their recent district convention there. Mrs. Ferguson proved a caterer of the best class. Mrs. Ferguson has but recently opened a delicatessen near the Grand Union hotel.

A dear old lady went to church one Sunday and was escorted up the aisle by a very obliging usher. As the latter seated her in a particularly comfortable pew, he bent gallantly down and enquired in a whisper if an open window nearby would be draughty for her. "No, indeed," replied the old lady, brightly, "I always sleep with my window open."

NEW PSALM OF  
THE FORD OWNER

The Ford is my auto, I shall not want. It taketh me and my family beside the still waters, where the trout biteh and trouble cometh not.

Yea, though I return home when night cometh after journeying many miles, lo, the gasoline in my tank is still high.

But, alas, my motor after squandering his sustenance for a high-priced chariot, povereth not his raiment for sufficient of that which causeth the motor to cough. For verily, John D. Locketh alike on the small and great and demandeth his pay while yet gasoline is unburned in the tank, so he remaineth at home and removeth the fly specks from his car which verily shenth like unto the bald heads of the prophets.

Yea, though I burst a tire in the wilderness, yet I do fear no evil, for yet but a little while and there passeth a multitude who in their wisdom drive Fords and gladly lend me that which I most desire.

But the man who buyeth of the Sadducees, today he goeth forth in glad raiment, tomorrow he walketh back while his chariot turteth long by the wayside where moth and rust doth corrupt and thieves break in and steal; for verily it taketh a long time and many shekels to bring a part up and out of Jerusalem that he may once more journey in the land of the fathers.

What though after many years of service, my Ford showeth the marks of age, yea verily, I sh-k-bibble. For a few shekels the Ford man reneweth its youth and it journeyeth long with my children's children.

But the Underground, the Ready-breaker, the Smashwell and the Dashhound of the Sadducees, today they spring up like the grass, but tomorrow they break and we see them no more in the land except in the junk heaps of the Israelites.

And they who would sell other cars loudly knock the Ford from the house tops and cry their wares in the streets, but verily they sell not, and the Ford dealer waxeth fat in the land.—Ex.

## CHEVROLET CHALLENGES ALL

Climbing a hill one thousand miles long is one of the tests which General Motors' engineers believe no car can withstand unless it has rugged strength and stamina built into it to meet such continuous strain.

In effect, this is the test which the Chevrolet car is meeting at the General Motors' testing grounds, 1125 acres in Iowa.

A "towing dynamometer" is the machine used to duplicate the terrific drag encountered by an automobile motor in ascending steep hills. It is said to reproduce almost exactly the stress of an up-hill climb.

The dynamometer is mounted on a chassis to be towed behind the Chevrolet car undergoing the test. Weights on a scale beam control two huge brake drums on the chassis through a hydraulic valve exerting pressure on the drums through a set of gears. The scale can be set to reproduce a grade of almost any degree through pressure on the drums.

Today the prospective car owner does not have to play the role of an experimenter in trying out products of General Motors. Experienced engineers on the proving grounds have every modern facility at their disposal to test all devices or methods suggested for the improvement of Chevrolet cars. Other American and foreign cars are also "put through the grind" there. Any changes contemplated for the Chevrolet are tested for months or years before final adoption.

Residents of High River who desire to practice or dance the Charleston are escorted into the hills by the police, where they are allowed to go through their crazy pranks under police supervision. The escort's fee of \$2.00 is having the desired effect.

## COWLEY HAPPENINGS

**COWLEY, Oct. 14.**—On Monday afternoon, Mrs. Archie Swart entertained the ladies of the village and surrounding community.

Mrs. Latta is a present visitor to Calgary.

While riding, little Marcel Perceval, aged eight years, was thrown from his horse, which stumbled with him, giving him a severe head wound. The doctor was rushed to the scene of the accident, when he found it necessary to make several stitches. We are glad to say the boy is favorably progressing.

The school fair held here on Friday was highly successful. The judges said it was the best school fair they had attended this fall. The singing and elocution contest, which followed in the evening, showed marked progress over previous years. The day being fair, everything moved along smoothly. The prize list is as follows:

Carrots—1st, Elma Lewis, Ashvale; 2nd, David Lewis, Ashvale; 3rd, Lawrence Best, Lee.

Beets (3)—1st, Marjorie Cleland, Tanager; 2nd, Doris Musgrave, Tanager; 3rd, Willie Musgrave, Tanager.

Paranips (6)—1st, John Lesko, Firgrove; 2nd, Leslie Day, Tennessee; 3rd, Dora Day, Tennessee.

Turnips (3)—1st, Harold Snyder, Tennessee; 2nd, Willie Musgrave, Tennessee; 3rd, Mary Chiss, Coalfields.

Mangels (3)—1st, Harold Snyder, Tennessee; 2nd, Felice Marcolli, Lee; 3rd, Doris Musgrave, Tennessee.

Green Peas (12 pods)—1st, Maitland Stansby, Todd Creek.

Cabbage (2)—1st, Maitland Stansby, Todd Creek; 2nd, Billie Potapoff, Cowley; 3rd, Fred Succoreff, Lundbreck.

Butter (12 tuber whites)—1st, Ronald Lewis, Ashvale; 2nd, Willie Musgrave, Tennessee; 3rd, Roy Eddy, Coalfields.

Potatoes (12 tuber reds)—1st, Willie Musgrave, Tennessee; 2nd, Harold Snyder, Tennessee; 3rd, Mary Chiss, Coalfields.

Vase Petunias—1st, Sylvia Murphy, Cowley.

Sheep Wheat—1st, Ruby Fink, Tennessee; 2nd, Doris Musgrave, Tennessee; 3rd, Willie Musgrave, Tennessee.

Sheep Oats—1st, Frank Webber, Willow Valley; 2nd, Ruby Fink, Tennessee; 3rd, Alix Spears, Heath Creek.

Sheep Barley—1st, Harold Snyder, Tennessee.

Quick Threshed Wheat—1st, Ruby Fink, Tennessee; 2nd, George Lowery, Coalfields; 3rd, Willie Musgrave, Tennessee.

Collection of Grasses and Clovers—1st, Harold Snyder, Tennessee.

Collection of Noxious Weeds (mounted)—1st, Willie Musgrave, Tennessee; 2nd, Clara Evans, Willow Valley.

Best Weed Collection—1st, Ruby Fink, Tennessee.

Best Lamb—1st, George Burles, Olin Creek.

Pure Bred Dairy Heifer—1st, Frank Webber, Willow Valley; 2nd, Ruth Webber, Willow Valley.

Graded Dairy Heifer—1st, Muriel Marlow, Cowley; 2nd, Billie Ritson, Cowley; 3rd, Willie Musgrave, Tennessee.

Foal (born current year)—1st, Willie Musgrave, Tennessee; 2nd, Doris Musgrave, Tennessee.

Special Children's Judging—1st, Frank Webber, Willow Valley; 2nd, Ruth Webber, Willow Valley; 3rd, George Burles, Olin Creek.

Fen of Chickens (American or English)—1st, Ronald Morrison, Cowley; 2nd, George Lowery, Coalfields.

Fen of Chickens (Mediterranean)—1st, Frank Webber, Willow Valley; 2nd, Dorothy Irwin, Cowley; 3rd, Muriel Marlow, Cowley.

Cockerel (American or English)—1st, Doris Musgrave, Tennessee; 2nd, Willie Musgrave, Tennessee; 3rd, Sylvia Murphy, Cowley.

Pullet (American or English)—1st, Alvin Murphy, Cowley; 2nd, Willie Musgrave, Tennessee; 3rd, Edith Murphy, Cowley.

Cockerel (Mediterranean)—1st, Frank Webber, Willow Valley; 2nd, Dorothy Irwin, Cowley.

Pullet (Mediterranean)—1st, Frank Webber, Willow Valley; 2nd, Dorothy Irwin, Cowley.

Special Rabbit—1st, George Lowery, Coalfields.

Special Turkey—1st, Alfred Chirfa, Coalfields.

Special Game—1st, Sandy Porter, Cowley.

Special Bantam—1st, Josephine Porter, Cowley.

Special Pigeons—1st, John Eddy, Coalfields; 2nd, M. Tag, Coalfields; 3rd, Roy Eddy, Coalfields.

Ducks—1st, Peter Franz, Todd Creek; 2nd, Dick Burles, Olin Creek.

Spice Cake (10 years and under)—1st, Barbara Bundy, Cowley; 2nd, Ruby Fink, Tennessee; 3rd, Margaret Stevens, Firgrove.

Graham Muffins (10 years and under)—1st, Barbara Bundy, Cowley; 2nd, Dora Day, Tennessee; 3rd, Ruby Fink, Tennessee.

Maple Cream Candy—1st, Marjorie Cleland, Tanager; 2nd, Barbara Bundy, Cowley; 3rd, Edith Murphy, Cowley.

Baked Rice Pudding (10 years and under)—1st, Dora Day, Tennessee; 2nd, Sylvia Murphy, Cowley; 3rd, Alvin Murphy, Cowley.

Doughnuts (11 and 12 years)—1st, Roberta McLachlan, North Fork; 2nd, Myrtle Lowery, Coalfields; 3rd, Leota Everts, Ashvale.

Baking Powder Biscuits (11 and 12 years)—1st, Myrtle Lowery, Coalfields; 2nd, Lawrence Best, Lee; 3rd, Donald Spears, Heath Creek.

Ginger Bread (11 and 12 years)—1st, Ketha Tustian, Cowley; 2nd, Donnell Spears, Heath Creek; 3rd, Nellie Johnston, Firgrove.

Drop Cookies (13 years and over)—1st, Lillian Everts, Ashvale; 2nd, Hilda Farnast, Olin Creek; 3rd, David Lewis, Ashvale.

Oat Cookies (10 years and over)—1st, Doris Musgrave, Tennessee; 2nd, Myrtle Bennett, Lee; 3rd, Mary McKay, Todd Creek.

Boston Baked Beans (13 years and over)—1st, Doris Musgrave, Tennessee.

Apple Pie (13 years and over)—1st, Doris Musgrave, Tennessee; 2nd, Mary McKay, Todd Creek; 3rd, Marshall Carey, Ashvale.

School Lunch (all ages)—1st, Doris Musgrave, Tennessee; 2nd, Ruby Fink, Tennessee; 3rd, Mary McLachlan, North Fork.

School Lunch (all ages)—1st, Barbara Bundy, Cowley; 2nd, Billie Ritson, Cowley; 3rd, Billie Ritson, Cowley.

Wheat Bread (13 years and over)—1st, Mary McLachlan, North Fork; 2nd, Peter Franz, North Fork; 3rd, Doris Musgrave, Tennessee.

Cleaning Mitt (under 11 years)—1st, Edna Lewis, Ashvale; 2nd, Alina Ballantyne, Coalfields; 3rd, Elizabeth Holmes, Beaver Mines.

Remmed Towel (under 11 years)—1st, Paddy Negraf, Firgrove; 2nd, Pauline Lesko, Firgrove; 3rd, Charlotte Crayford, Lee.

Hand-Sewn Bag (under 11 years)—1st, Barbara Bundy, Cowley; 2nd, Alina Ballantyne, Coalfields; 3rd, Bridget Burn, Lee.

Doll's Mitt (11 years and under)—1st, Massie McIntosh, Willow Valley; 2nd, Charlotte Crayford, Lee; 3rd, Ruby Fink, Tennessee.

Knitted Wash Cloth (under 11 years)—1st, Annie Daidie, Lee; 2nd, Gladys —, Lundbreck; 3rd, Charlotte Crayford, Lee.

Slip-Over Apron (11 to 16 years)—1st, Ketha Tustian, Cowley; 2nd, Lillian Robinson, Tennessee; 3rd, Ethel Robinson, Tennessee.

Hemmed Patch on Cotton (11 to 16 years)—1st, Elvina Lissa, Lee; 2nd, Angella Lissa, Lee; 3rd, Myrtle Lowery, Coalfields.

Woven Darning (11 to 16 years)—1st, Elva Ballantyne, Coalfields; 2nd, Myrtle Lowery, Coalfields; 3rd, Ruth Tanch, Tennessee.

Sample Button Hole, Button and Fastener (11 to 16 years)—1st, My-

rtle Lowery, Coalfields; 2nd, Elva Ballantyne, Coalfields; 3rd, Mary McLachlan, North Fork.

Hemstitched Towel (11 to 16 years)—1st, Myrtle Lowery, Coalfields; 2nd, Felice Marcolli, Lee; 3rd, Ketha Tustian, Cowley.

Knitted Mittens, Child's Stocking or Sweater (11 to 16 years)—1st, Doris Musgrave, Tennessee.

Knitted Wristlets or Scarf (11 to 16 years)—1st, Myrtle Lowery, Coalfields; 2nd, Vivian Wilson, Tennessee; 3rd, Elva Ballantyne, Coalfields.

Thrift Problem, using flour or sugar sacks (11 to 16 years)—1st, Ruth Webber, Willow Valley; 2nd, Mary McLachlan, North Fork; 3rd, Berta McLachlan, North Fork.

Thrift Problem, using cement or gunny sacks (11 to 16 years)—1st, Pauline Lesko, Firgrove; 2nd, Ruby Fink, Tennessee; 3rd, Ruth Tanch, Tennessee.

Model of Fruit or Vegetable in Plasticine (Grades I and II)—1st, Annie Kulkooski, Coalfields; 2nd, Nellie Negraf, Firgrove; 3rd, Genevieve Jakabell, Firgrove.

Drawing Fruit and Vegetables (crayon)—1st, Jack Bundy, Cowley; 2nd, Bill Conklin, Cowley; 3rd, Clara Bundy, Cowley.

Paper Construction Work—1st, Jack Bundy, Cowley; 2nd, Fred Succoreff, Lundbreck; 3rd, Virginia Holmes, Coalfields.

Flower Leaf or Twig (crayon)—1st, William Potapoff, Cowley; 2nd, Felix Marcolli, Lee; 3rd, Fred Lesko, Firgrove.

Simple Landscape (crayon)—1st, Fred Lesko, Firgrove; 2nd, Barbara Bundy, Cowley; 3rd, John Dziedric, Lee.

Simple Landscape in Wash (Grade II)—1st, Felice Marcolli, Lee; 2nd, Barbara Bundy, Cowley; 3rd, Netta Swart, Cowley.

A Construction and Decoration of a Simple Box (Grades V and VI)—1st, Verdon Leigh, Cowley; 2nd, Rose Chiss, Coalfields; 3rd, Charlie Yagos, Tennessee.

An Animal or Bird, in pencil (Grades V to VII)—1st, Margaret Walters, Lundbreck; 2nd, Elva Ballantyne, Coalfields; 3rd, Harry Eddy, Lee.

A Decorated Lamp Shade (Grades V and VI)—1st, Ruth Tanch, Tennessee; 2nd, Mike Yagos, Tennessee; 3rd, Molly Gunn, Lee.

Still Life Group, in pencil (Grades V to VII)—1st, Helen Love, Heath Creek; 2nd, Ruth Tanch, Tennessee; 3rd, Bertha Borthwick, Lundbreck.

Landscape, including Trees (Grades VII and VIII)—1st, Claud Hammond, Ashvale; 2nd, Mary E. Hammond, Tennessee; 3rd, Margaret Muden, Lundbreck.

Spacing of Wall of Room, in color (Grades VII and VIII)—1st, Mary Hammond, Ashvale; 2nd, Nellie Nelson, Ashvale; 3rd, Mary McLachlan, North Fork.

Poster Problem (Grades VII and VIII)—1st, Vincent Walters, Lundbreck; 2nd, Mary McLachlan, North Fork; 3rd, Elvina Lissa, Lee.

A Poster, including Illustration and Block Letter (High School)—1st, John Kropanek, Willow Valley.

A Decorative Composition, planned from a simple landscape and rendered in flat tones of grey or yellow (High School)—1st, John Kropanek, Willow Valley; 2nd, Myrtle Bennett, Lee.

Making a Design for Initial Letter or Monogram, rendered in value of grey or color (High School)—1st, John Kropanek, Willow Valley; 2nd, Myrtle Bennett, Lee.

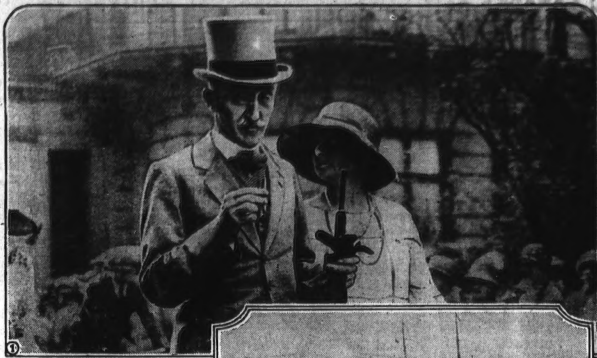

Pennmanship (Grade I)—1st, Mary Yagos, Tennessee; 2nd, Nicholas Malloff, Cowley; 3rd, Bill Koskin, Cowley.

Pennmanship (Grades II and III)—1st, Mary Dziedric, Lee; 2nd, Lillian Porter, Cowley; 3rd, Brian Yarborough, Coalfields.

Pennmanship (Grades IV and V)—1st, Bridget Burn, Lee; 2nd, Donald Robertson, Ashvale; 3rd, Hazel Eddy, Lee.

Pennmanship (open)—1st, Margaret Lynch, Coalfields; 2nd, Elva Ballantyne, Coalfields; 3rd, Frank Webber, Willow Valley.

## Canada's New Governor-General Arrives

(1) Viscount and Lady Willingdon. (2) Empress of Scotland, on which the new Governor-General sailed for Canada.

Lord Willingdon, recently appointed Governor-General of Canada to succeed Lord Byng, received a hearty welcome to Canadian shores at Quebec City, where he and Lady Willingdon arrived at the beginning of October on the Canadian Pacific liner Empress of Scotland. They proceeded to Rideau Hall, Ottawa, the official residence of the King's representative in Canada. The news of the appointment of Lord Willingdon to the highest representative post in Canada has been accorded widespread approval both in Canada and in the Mother Country, and his arrival to Canadian shores has been greatly anticipated. That this anticipation has been mutual was confirmed by Lord Willingdon in an interview with the Press on board the Empress of Scotland, just prior to her departure for Canada.

"My experiences in Canada in other years were exceedingly pleasant, and I am looking forward with very much pleasure to my stay in Canada," Lord Willingdon stated. "I understand that a great part of the governor-general's duties is to set about the Dominion and see the

country for himself, and I am looking forward to many opportunities in this direction."

In 1912 Lord Willingdon was appointed Governor of Bombay, an appointment which he held until 1919, when he was appointed Governor of Madras. He returned from India in 1924. That his tenure of office in India was most popular was confirmed by the Diwan, an official potentate of the Indian Government who has recently been visiting in Canada and who opened the National Exhibition at Toronto this fall. The Diwan, a former Premier of the Cochin State of Southern India, became closely connected with Lord Willingdon regarding administrative matters. In tribute to Lord Willingdon the Diwan stated recently: "I am certain that the King's new representative in Canada will prove very popular. His administrative ability was very highly regarded throughout India. He was Governor of Madras when the popular reformed system of government, a modified system of home rule, was established."

London made a fond farewell to this popular English nobleman, when they left Waterloo Station for the Empress of Scotland. His Majesty the King was represented by Viscount Hamblen. Lieut.-Col. L. C. Sir Ronald Waterhouse, Lady Willingdon's suite on board the liner was well-nigh smothered with flowers, these including a magnificent display of carnations sent from Premier Stanley Baldwin and Mrs. Baldwin.

tyne, Coalfields; 3rd, Frank Webber, Willow Valley.

Composition (Grade II)—1st, Marion Morrison, Cowley; 2nd, Jack Bundy, Cowley; 3rd, Joe Dziedric, Lee.

## CANADA'S NEW GOVERNOR-GENERAL ARRIVES

1. Crayon sketch of Viscount Willingdon drawn on board Empress of Scotland just prior to the vessel sailing for Canada.  
2. Crayon sketch of Viscountess Willingdon drawn on board the Canadian Pacific liner Empress of Scotland just prior to the vessel's departure for Canada.  
3. Misses (left) Clara Terrier, belonging to Their Excellencies which escorted instant popularity.  
4. Misses (right) Clara Terrier, belonging to Their Excellencies which escorted instant popularity.  
5. A map of the world showing the various positions held all over by the Empress of Scotland.  
6. A map of the world showing the various positions held all over by the Empress of Scotland.

Their Excellencies Viscount and Viscountess Willingdon made many friends on their voyage from England to Quebec on board the Canadian Pacific flagship Empress of Scotland, when His Lordship came here in October to become Governor-General of the Dominion. They paid visits to all parts of the vessel chatting with new settlers for Canada and presiding at the various functions that take place aboard ship during an ocean voyage. Sharing their popularity was their daughter Clara Terrier, Missy, who was friends with everyone except perhaps a plump Chow who looked to him as though he might develop into a dangerous rival.

Canada's thirteenth Governor-General had a fine reception when the ship docked at Quebec. He struck a tactful note when he told his French-Canadian audience he too could claim descent from the Normans and that French blood flowed in his veins equally as in theirs. "In this country," he said, "the descendants of our two races have worked for many years under the British Crown for a common purpose and

object, namely, to promote the welfare and prosperity of the people of this wonderful country."

First impressions are vital in establishing successful relations and perhaps no impression gave so cordial an effect as one of His Lordship's speeches aboard the Empress of Scotland, which was broadcast all over Canada. "In it he said: 'I wonder if I may venture to add one word of rather an intimate and personal character. It is this—in wishing all my fellow-passengers the best of good luck in the future and all health and happiness they can possibly expect and obtain, may I ask them one and all to give an occasional thought—a kindly thought—to one who is about to undertake very grave responsibilities for the British Empire in the great Dominion of Canada.'"

That is the true democratic note, sounded with modesty and feeling and sure of an unreserved response throughout the length and breadth of Canada.

## Here and There

**Victoria.**—Twenty head of grade beef steers, two years old, from Alaska Island, have been sold to Japanese buyers. This makes a new departure in the sheep industry of the island, being the first of the home production to be sent to Japan.

It is estimated that southern British Columbia will produce 3,217,000 boxes of apples this season, this is about 700,000 boxes more than last year's production. Arrangements are being made for a heavy export business to Great Britain, as well as to the Prairies and Eastern Canada.

A regular aerial mail service has been established between Vancouver, Japan and Darwin in South Manchuria, two Japanese built "Kawanishi" planes being used. This service is daily, and is being sponsored by the "Osaka Mainichi," one of the largest newspapers in Japan, whose aviators recently flew to Berlin.

**Moose Jaw.**—One thousand head of Western Canadian light horses purchased for the Soviet government were assembled here. The horses, which are all light, are being bought for the Russian government with Russian funds placed in Canadian banks for that purpose. A similar purchase was made last year and the repeating of the order indicates satisfaction with the Canadian stock.

The increase in the net profits of the Canadian Pacific Railway for the first eight months of the year ending August 31st is \$6,514,596.76, according to a financial statement issued at the headquarters of the Canadian Pacific at Montreal. This is the increase in profits as compared with the profits for the same period in 1923. The increase in the net earnings over the same period in 1925 is stated at \$12,891,364.57.

"Hell-Roaring Canyon," the scene of a dramatic incident in John Murray Gibbon's new novel "Eyes of a Gypsy" is the actual name of a remote valley in the Canadian Pacific Rockies as known to the guides and hunters, although the Geographic Board of the Canadian Government has just changed it to a less romantic name—"Numa Creek." The reason for the change in name is that there is another Hell Roaring Canyon in the Rockies which claims a prior right to the name.

The Ancient and Honorable Artillery Company of Boston, one of the oldest military organizations in the United States, being founded as the nucleus of the famous Artillery Company of London, in 1630, held their 298th annual field day and march past at Montreal, arriving at the Canadian Pacific Place Vicer Station on October 2nd. About 250 members of the organization, representing the oldest families in the State of Massachusetts, took part in this event.

"Dean Inge has a very imperfect appreciation of the feeling of India towards England when he prophesies that India's attitude to the Mother Country in the event of a future crisis, is doubtful," declared Diwan Bahadur Sir T. Vijayaraj-hacharya, Indian potentate who called for England on the Canadian Pacific liner Empress of France recently after a lengthy tour of the Dominion. The Diwan discounted the gloomy prophecies contained in Dean Inge's new book entitled "England."

For the third consecutive year the first aid team of the Canadian Pacific Police Constabulary at the Windsor Street Station, Montreal, carried off the "Gutulus Cup" symbolic of the highest marks obtained in the Quebec District C.P.R. first aid competition. The examinations were conducted at the Place Viger Hotel in Montreal, September 29th by Dr. Beatty, chief surgeon of the Canadian Pacific. Four other teams were in the field including two from the Angus Shops in Montreal, and one from Ottawa and Quebec.

## CHURCH ATTENDANCE

If one spends 167 hours a week at sleeping, eating, working, studying and playing, there is left one hour for attendance at church service. The "go-to-church" movement is worthy of its effort. And although religion does not consist alone in going to church, the one who does not neglect this important phase of his spiritual life is truly fortified with stronger evidence of his faith.—Kimberley Press.

## Here and There

**Edmonton.**—Large mouthed black bass were taken by a party of Alberta sportsmen for a batch of fingerlings and yearlings from the Kootenay Lakes have been placed in Lac La Poudre by the Northern Alberta Fish and Game Protective Association.

McGill University opened her senior football season in Montreal at the Percival Molson Memorial Stadium on October 2nd, with a game against the Old Boys. One of the most enthusiastic fans of this game is E. W. Beatty, President of the Canadian Pacific Railway, who is an annual ticket holder, and who will be present at all the big games this season.

In a recent despatch from the west, W. L. Smith, former editor of the "Farmer's Sun," estimates that approximately \$1,000,000,000 will be added to Canada's income this year from the products of the farms of Western Canada. Last year's field crops were valued at \$1,112,691,000 to the growers and it put the west in the prosperity column. Mr. Smith believes it is a fair assumption that this year the return will not be less.

An interesting estimate of Canada's per capita wealth has been made by the League of Nations, with comparative figures of 22 years ago. In 1925 the per capita wealth in this country amounted to \$2,406, as contrasted with \$1,700 per capita in 1903. Out of the 35 nations listed, Canada ranks third, the United States showing \$2,918 and Great Britain \$2,459 per capita, respectively.

With a view to obtaining financial assistance of some kind with which to aid the emigration of Austrian farmers to Canada, Dr. Heinrich Montel, an Austrian Government official, arrived in this country recently on board the Canadian Pacific S.S. "Montreal." There are 10,000 Austrian farmers who would emigrate to Canada, stated Dr. Montel, all of them practical farmers, but they do not possess sufficient funds to pay their passage to this country.

Egypt may include Canada among those countries in which she will be without representation, according to a statement made recently by Emile Shartel, acting as unofficial ambassador to Canada who arrived in Canada on the Canadian Pacific liner "Mississippi." Mr. Shartel is trying to interest Egypt in Canadian flour and timber, and in return expects the Dominion to reciprocate by purchasing cotton, dried fruits, etc., direct from Egypt instead of through the middlemen in London or New York.

Walking about on a two-foot wide platform, 200, 300 and even 500 feet up the outer surface of huge chimneys is all in a day's work to Henry Held, expert chimney builder and climber, who was employed recently by the Canadian Pacific Railway to overhaul a 200-foot chimney in the station yards at the Windsor Street Depot in Montreal. It took eight days for Held and his assistants, Richard Boucher, of Three Rivers, to move the platform, secured by a heavy cable, up the side of the chimney, in order to begin work at the top.

Lord Clarendon, Under-Secretary of State for Dominion Affairs in the British Government, sailed for England from Quebec on the Canadian Pacific liner "Empress of France," September 29th, bringing to a close an extended tour of the Dominion investigating the conditions under which the 3,000-family immigrant scheme is being carried out in Canada. His Lordship, who is chairman of the Overseas Settlement Board under whose auspices this scheme is being conducted, made the statement before his departure that he was greatly satisfied with the conditions amongst Britishers who have settled in Canada under this scheme. He personally visited over 120 farms.

Judge: "Have you ever seen the prisoner at the bar?"

Witness: "Never, your honor. But I've seen him when he's come away from it, staggering something scandalous."

A west end couple, who by the way are natives of Scotland, have figured in the latest joke. The good wife returned to the parlor and remarked: "O, David, there's a mouse in the pantry!"

"Don't worry, dear," coolly replied David. "Shut the pantry door and he'll starve to death."

## Here and There

The recently organized egg and poultry producers' association of 17,000 members. Egg production in that province is 33,672,363 dozen yearly. Saskatchewan is now the second largest poultry producing province in Canada, Ontario being first.

**St. Catharines.**—The North American celery championship has been awarded to James Little of this city by the American Vegetable Growers' Association, convening in Cleveland. The high quality of Canadian celery has long been recognized and this new triumph is expected to further stimulate production.

The Australian Cricket Team, "lances of five test matches" against England this summer, arrived in Canada on the Canadian Pacific liner Montreal, October 8th. After visiting some of the principal cities in Canada and the United States, the team proceeded to Vancouver where they sailed on M.S. Adair for their homes in Australia, October 21st.

For the third year in succession the Molson First Aid Team from New Brunswick carried off the "Grand Challenge Trophy," emblematic of the eastern lines first aid championship of the Canadian Pacific Railway. The competition was held recently at the Place Viger Hotel in Montreal, four other teams from points east of Fort William competing.

The oldest employee of the Canadian Pacific Railway in point of seniority, James O'Brien, vice-president in charge of finance, celebrated his 82nd birthday October 10th. He has served the Company for 44 years and his business experience goes back to the Civil War days. Mr. O'Brien was the recipient of congratulations from all parts of the Dominion.

General Booth, head of the Salvation Army, sailed recently from Vancouver on the Canadian Pacific liner "Empress of France." The General will tour Japan, China and Korea. True to his maxim of not touching food for two days previous to a sea voyage, the General contented himself with sipping a little hot water while attending to his correspondence and waiting for the time to sail.

Toronto.—The New York Times is about to invest \$25,000,000 in northern Ontario for the production of all of its requirements for the day. The announcement of this project was made by the secretary of the president, Adolf Ochs, during the sojourn of both in this city. The site selected for the paper plant is at Kapuskasing where there is already a small sulphate mill in operation. The water power, 75,000 h.p., will be generated from Smoky Falls.

Thirty students from Oxford and Yale Agricultural College, Kent, England, returned home on the Canadian Pacific liner Montclair recently after having assisted in the harvesting of the Saskatchewan crop. These young men were brought out to the Dominion by the Department of Colonization and Development of the Canadian Pacific Railway, and placed on selected Saskatchewan farms by the Women's British Immigration League. The students are resuming their studies in England this fall.

G. Walter Booth, Prosecuting Attorney for the State of Ohio, in an interview in the tourist department of the Canadian Pacific Railway at Montreal recently, stated that American hunters were choosing Canadian hunting grounds in place of those in the United States practically without exception. Americans, he said, were taking one hundred per cent. interest in Canadian game resorts. Mr. Booth is at present in Canada on his annual duck hunt near Winnipeg, and also a big game hunt in north-western Quebec.

Lecturer (specialist on child training).—"In the upbringing of children the golden rule should be applied." Voice in Audience—"I use a plain wooden one on mine, and it works just as well."

## Not Golly

"Pardon, sir, but could you tell me where I could get a drink?" "Mister, I'm only a street car policeman. You're the third man this morning who has inquired me for a policeman."

## A SILLY LAW

The holding of by-elections for the endorsement of members elected who have been given ministerial appointments is one of those antiquated conventions which Canada would do well to abrogate. It seems a silly proceeding and a silly waste of time, for members who have already received the confidence of their particular electorates to go through the formula of another election for re-endorsement on the score of having been given places in the cabinet. The Dominion will do well to do away with a meaningless formula, just as Great Britain and Alberta have done in going away with a practice, which, particularly following close on a general election, has by now had its day.—High River Times.

## PRESENTS ANOTHER WAR BILL

The United States, which is presenting before Britain a huge bill of damages claimed as a result of the blockade against Germany before the entry of the United States into the war, is to receive a counter account which London hopes will equal in size the U.S. war claims. Until the United States navy department began the work of setting up claims Britain had refrained from presenting bills for re-conditioning done to the United States vessels during the time that country was an ally of Great Britain, and other services done to United States vessels. The U.S. claims are on behalf of Americans who attempted to run the blockade and transport supplies to Germany, and who were intercepted by the British navy.—High River Times.

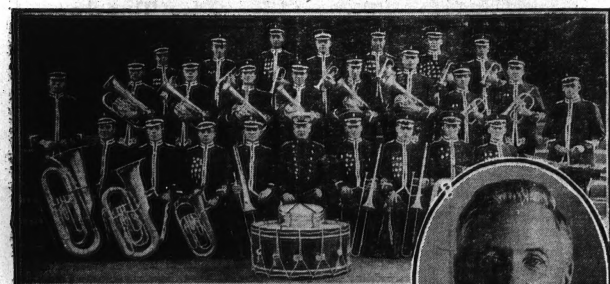

## LENGTHENING OF

## VACATIONS HARMFUL

Dr. Charles Curtis Harrison, of the University of Pennsylvania, states that lengthening of the vacation period, with the resultant loss of time from study, constitutes a fundamental error in the recent trend of education insofar as the student is concerned. In recent years the average age of university graduates is between twenty-one and twenty-two years. This means that the majority of them are getting to work just about three years later than was the custom when I graduated, sixty-four years ago. At that time the academic year was divided into three terms, while the intervening vacations tallied only a little more than eleven weeks.

## Australian National Band Visits Canada

For the first time in history, the people of Australia have sent out a representative band to Canada. Selected from every state in the Commonwealth of Australia, this group of 25 expert musicians will make a comprehensive tour of the Dominion under the name of "The Australian National Band," giving concerts at the principal cities along the way. They came to Canada directly from England, where they competed in the famous English Band Contest at Manchester. This completed a lengthy engagement in England. Previous to this the band spent six weeks in South Africa and in all, including engagements in Australia and New Zealand, the band has been

on tour for the past ten months. The Canadian tour opened September 25th at Quebec, where the musicians arrived over the Canadian Pacific steamship liner. The reception given to the band at the Ancient Capital was excellent. Complete arrangements for concerts across the Dominion had been made by Lieut. H. Gladstone Hill, director of publicity and manager of the Canadian tour. In Montreal the Australian Band was featured in the McGill University Reunion celebrations on October 4th, to which function the band had been invited as guests. In the afternoon of the same day the band played for the march past of the Ancient and Honorable Artillery Company of Boston,

upon their visit to Montreal. One of the most noticeable features of the band is its versatility, grand opera, church music, and jazz, all being rendered with equal success and skill. When they cross Canada on the Canadian Pacific lines and sail for Australia from Vancouver they will have circled the globe.

## Here and There

Vancouver.—According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 400 per cent. in the past five years, while the import trade has increased 51 per cent.

In a recent report from the Canadian Pacific Agent at Shanghai received at Montreal it is stated that the summer in vicinity of Shanghai has been trying on account of drought. This may have a disastrous effect on the crops. The long and intense heat wave was only recently broken by a typhoon which struck the Coast near Shanghai.

A plan is projected by the Osaka Prefectural Government authorities in Japan for the promotion of a large exposition in commemoration of the tenth anniversary of the restoration of world peace. It is expected that the exposition will be held in Osaka in 1929. The plans for the exposition, which will be carried out at tremendous cost, have been approved by the Prime Minister.

So successful on Canadian farms have been young bachelors, who, prior to residence in this country were students in agriculture at the Hodgekin Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men destined for farm lands in the Dominion. The course will be given during six months, and will consist of thorough training in branches of agriculture, particularly adapted to conditions in Canada.

Prospects for the establishment of an air route in Japan for mail and passenger service have brightened with the announcement that the Ministry of Communications has included an appropriation in the budget of the Communications Department for such a service. It is anticipated that there will be enough passengers willing to pay double the railroad fare for the sake of speed between Osaka and Tokyo, the leading cities of Japan.

The Hebridean emigrants who are leaving their lone shellings and misty islands for a new life in Canada have, curiously enough, hitherto been ignored by the novelists, although the romance of the migration, extending over a hundred years provides a wonderful field for fiction. The extent of this field has now been realized, however, in the new novel "Eyes of Gypsy" by the Canadian writer John Murray Gibson, who is the well-known author of "Drums Afar", etc., and Dean of Publicity of the Canadian Pacific Railway.

Action should be taken by the authorities in the Province of Quebec to shorten the open season for hunting deer and moose, according to Oscar Ripley, well known writer on animal and wild life and prominent hunter and angler. Mr. Ripley also believes that the deer season is too early as in September the deer are still in their red coats, and their numbers are only conserved through their ability to hide amongst the leaves of the underbrush which have not yet fallen. He believes that a scarcity of this game will result from the lengthy season.

The Earl of Clarendon, Under Secretary of State for Dominion Affairs in the British Government, who has been touring the Dominion investigating the conditions under which the 3000-family scheme from Great Britain is working out, declared, in an interview at the Canadian Pacific Windsor Street Station at Montreal recently, that one of the greatest things upon which the success of the scheme depended was the loyalty and cheerfulness of the mothers of families brought out to Canada to be located on farms. His Lordship paid a special tribute to the type of women brought out under this scheme whom he had met during his personal visits among immigrant families.

Customer, to Kafoury: "This shoe pinches my joint."  
Kafoury: "Well, madam, there are very few joints that don't get pinched these days."

Jock met his friend Sandy in the street.  
"Sandy," he said, "I wonder if you could oblige me with a cigarette?"  
"But I thought you said you'd stoppin' smokin'?" Sandy reluctantly said.

"Aye, weel," replied Jock. "I've reached the first stage. I've stoppin' buyin'."

## A FAMOUS ODE

This ode was written in 1911 for R. Hoar & Company to commemorate the building of a colossal magazine rotary press for the late Frank A. Munsey. It has since become the most widely paraphrased prose poem in the English language, and has a place in the text books of the public schools.

With the kind permission of Mr. Robert H. Davis, the author, it is reprinted in these columns.

I AM the printing-press, born of mother-earth. My heart is of steel, my limbs are of iron, and my fingers are of brass.

I sing the songs of the world, the oratorios of history, the symphonies of all time.

I am the voice of today, the herald of tomorrow. I weave into the warp of the past the woof of the future. I tell the stories of peace and war alike.

I make the human heart beat with passion or tenderness. I stir the pulse of nations, and make brave men do braver deeds, and soldiers die.

I inspire the midnight toiler, weary at his loom to lift his head again and gaze, with fearlessness, into the vast beyond, seeking the consolation of a hope eternal.

When I speak, a myriad people listen to my voice. The Saxon, the Latin, the Celt, the Hun, the Slav, the Hindu, all comprehend me.

I am the tireless clarion of the news. I cry your joys and sorrows every hour. I fill the dullard's mind with thoughts uplifting. I am light, knowledge, power. I epitomize the conquest of mind over matter.

I am the record of all things mankind has achieved. My offspring comes to you in the candle's glow, amid the dim lamps of poverty, the splendor of riches; at sunrise, at high noon, and in the waning evening.

I am the laughter and tears of the world, and I shall never die until all things return to the immutable dust. I am the printing-press.

—Robert H. Davis.

Alberta's three national parks—Jasper, Banff and Waterton—received nearly twenty-four million dollars from the tourist traffic in 1925. The parks were visited by 333,000 people.

Don't forget the annual bazaar of the Ladies of St. Anne's church, to be held in the Lodge Hall on Wednesday, November 24th. Fancy work, home cooking, candy, fish pond. Tea will be served.

He: "Will you marry me?"  
She: "But I must tell you, I'm a somnambulist."  
He: "Oh, that's all right. You can go to your church and I'll go to mine."

## Not in The Concrete

A contractor who professed to be very fond of children became very angry because some little fellow stepped on a new pavement before it was dry.

His wife rebuked him. "I thought you loved children," she said.

"I do in the abstract, but not in the concrete," he replied.—The Municipal World.

## COWLEY HAPPENINGS

Oct. 29.—Gordon Robinson, of Calgary, spent a few days here this week.

Mrs. E. Boethiller and two sons, Bruce and David, have returned from a trip to Calgary by motor.

Mr. Andrew Frost left for his home in Nebraska on Tuesday, after spending several days at the Nelson ranch.

Mrs. Harry Hannan and two sons, Tom and Billie, left on Saturday's local for Calgary, where they will make their home in future.

Miss Halon, teacher of the Heath Creek school, is on the sick list, but in the course of a few days will be able to resume her duties.

A special meeting of the Women's Institute was held on Friday for the purpose of making arrangements to put on another whist drive and dance on Friday, the 29th of this month.

Around sixty per cent of the threshing is done here now. With present weather conditions, threshing in this district ought to be finished in the course of a couple of weeks.

After a short illness, Mrs. Gordon Robinson died at the home of her parents, Mr. and Mrs. Henry Franz, on Thursday afternoon last. Interment took place in the Cowley cemetery on Saturday morning. The sympathy of the community is extended to the bereaved ones.

A very pleasing Rally Day programme was put on in the United church here on Sunday by the children, under the supervision of Rev. Mr. and Mrs. Griffith, after which Rev. Griffith delivered a very appropriate sermon, stressing as he did "The Building of Character" in a gentle and persuasive manner.

Walter Fisher said to Scotty Pete McPherson: "You did not tell me that you came from Aberdeen."

"No, sir, I didn't," replied Pete, "I didn't want to brag!"

"Now, this is the car you want, sir," explained Lenville. "Right up-to-date. You never have to crawl under it to fix anything."

"You don't!" said the customer in surprised tones.  
"No," went on Lenville, "if the slightest thing goes wrong with the mechanism the car will turn upside down, making it very convenient to fix it."

## Mixed Advice

A farmer wrote to the editor of an agricultural paper asking for a method of ridding his orchard of the grasshopper plague. In the same mail the editor received a request for advice from an anxious mother about her twins, who were having a hard time teething.

The farmer received this reply: "Wrap flannel cloths around their throats. Rub gums with castor oil and massage their stomachs twice a day."

The anxious mother received this startling reply: "Cover with dry straw. Soak thoroughly with coal oil and apply a match. The little pests will soon stop bothering you."

## What's a Name For

A man rushed into an old furniture store.

"What do you want?" asked the proprietor.

"Is this a second-hand store?" asked the man.

"Can't you see it's a second-hand store?"

"Well, I want a second hand for my watch."

Teacher: "If Premier King and all the members of the cabinet should die, who would officiate at Ottawa?"

Pupil: "Charlie Chase, the undertaker."

Magistrate: "How is it you haven't a lawyer to defend you?"

Kelly: "As soon as they found out that I hadn't stolen the automobile they wouldn't have anything to do with my case."

## The Christmas Spirit

It is no longer considered necessary to send expensive Christmas presents to friends and loved ones. Greeting Cards with appropriate sentiments will confer more happiness than expensive presents, and cost but a trifle in comparison.

## CHRISTMAS GREETINGS

carry a message of Peace, Love and Good Will characteristic of this holiday season, and friends and relatives appreciate these sentiments more than expensive gifts which call for similar return. You will find a large assortment of Greeting Samples now at The Enterprise office for your inspection.

## WORLD HAPPENINGS BRIEFLY TOLD

Arthur Bingham Walker, dramatic critic of The London Times, is dead. He was born at Bristol, December 17, 1855.

Lacy and Besala Medich, four months' old "Siamese twins," died at a Minneapolis hospital, where they had been undergoing treatment when Lacy contracted bronchial pneumonia.

Hungarian women may once more study to become doctors as the government has over-ruled the university senate's decision not to admit any more women medical students.

A tin whistle hanging from his belt with a bunch of keys deflected a burglar's bullet and probably saved the life of Frank A. Ryan, a police man, during a gun fight in New York.

After 34 years, a postal order which had been kept in a vault at Belleville, was cashed recently. The order was found and taken to the post office where authority for cashing it was obtained from Ottawa.

The Right Rev. Arthur Foley Winington Ingram, Bishop of London, believes in evolution, he told students at the University of Michigan in an address, adding that there is no conflict between science and religion.

A writ of habeas corpus returned George Desmarces, 22 months, to his mother after a Chicago hospital had held the child because Mrs. Margaret Desmarces was unable to pay a balance on a bill for the child's treatment.

Characterizing the Soviet regime in Russia as "the assassin standing over the prostrate body of freedom and democracy," the American Federation of Labor has renewed its pledge to give no quarter "to that regime of enslavement," or its friends and sympathizers in America.

Premier Mussolini seems to have fixed it so that no able bodied males will emigrate to the United States. The Government announced that 15,000 women, wives of Italians now in the United States, will absorb the quotas for at least eight years.

## The Opportune Moment For Immigration Effort

By C. W. Peterson

It is clear as daylight that the psychological moment for a country to launch a comprehensive colonization campaign is when her agriculture has definitely entered the upward swing. Western history and the experience of those who have been in close touch with colonization work there, point unmistakably to the fact that failure on the land is the greatest obstacle to the efforts of the various agencies devoting time and money to furthering immigration into Canada. It is a pity saying, but in strict accordance with the truth, that the successful settler is our most effective colonization agent. Common sense upholds both of these assertions. Canada can now, with confidence enter the field with a vigorous effort to largely augment her producing population and with the added assurance that in no period of her history were the opportunities more favorable for getting the fullest possible value for her expenditure on this object.

The time is favorable for a great, forward looking colonization and agricultural development policy, because agriculture is undoubtedly now in the process of entering an era of greater prosperity. It is estimated that there is a total world area of 13 million acres of arable lands and that it takes the products of 2½ acres to sustain each head of population. This would provide the bare necessities of life for 5,200 million people. It is estimated that with the present rate of increase this number would be reached well within a century, so that babies now born would witness the struggle of mankind for bare existence or wholesale starvation in years of extended crop failure. Of course, such a calamity will be averted. The present world-wide decrease in birth rate is nature's corrective.

Agriculture the world over has developed through the crude, ruthless directive agency of the law of supply and demand. The farmers have, in obedience to this law, for several decades suffered through demoralized prices due to an oversupply of agricultural products. But the reaction is now upon us—the pendulum is swinging the other way, and we have definitely entered an era when food products of all kinds will command a premium in the world's markets. It would be absurd to argue that in the face of constantly rising commodity prices, which will be maintained through the organization of industrial labor, prices of the basic necessities of life should decrease. I repeat that agricultural returns for the coming half century will rise to an increasingly satisfactory level. This tendency will run on the way over now.

This prediction is not visionary. It has a definite, historical background. Wheat, Canada's great staple export, is, more or less, the controlling factor in all agricultural prices. The comparatively low wheat prices that have prevailed until the last couple of years cannot be regarded as in any way normal. Canada now enjoys a virtual monopoly of the sole remaining, undeveloped hard wheat areas. Our wheat should, and presumably will, command a considerable premium in the world's market. Europe consumes about 600 million bushels of imported wheat annually. She now produces 50 per cent of the entire world wheat crop. About 2 billion bushels. She imports only about 30 per cent, consequently, the European peasant virtually is the controlling factor in world wheat prices. Because for every bushel of overseas wheat placed on the world's barge counter, two bushels of European wheat must be sacrificed, and there is a very definite limit to the ability of the European peasant to sell his products below cost. He must turn his attention to something else, which he will do and prices will go up. Aside from the economics of the wheat situation, there is nothing in history to warrant the belief that prices will not remain permanently on the satisfactory basis of the last two years which will ensure reasonable agricultural prosperity to Canada for years to come.

Germany Will Participate  
Germany will participate and have official representation in the world's poultry congress, which will be held in Ottawa in 1927. This information has been cabled to the local committee by Edward Brown, congress president.

A Scottish professor was left a widower in his old age. Not very long afterwards he suddenly announced his intention of marrying again, half apologetically adding "I never would have thought of it, if Lizzie hadn't died."

Hunter—I'm so sorry I shot your husband on that hunting trip. You see, I took him for an old bear. Widow—That's all right—he was—TOWN Topics.

## More People Dyeing!

Thousands of women give old garments latest colors, and make drapes and furnishings all bright and beautiful—thanks to home dyeing. So can you! It's fun, and how it saves money!

Deep-dyed, rich colors or delicate tints. So easy, if you just use real dye. Diamond dyes do a perfect job on any fabric—right over other colors. Dye anything, say as washing!

FREE now at any drugstore the Diamond Dye Encyclopedia, full of suggestions, with simple directions, actual piece-goods color samples, etc. Or write for big, illustrated book. Color Cash—free—DIAMOND DYES, Dept. N11, Windsor, Ontario.

## Is Good Quarry Manager

British Woman Says It Is Very Fascinating Occupation

Mrs. Anne Greaves is Britain's only woman quarry manager.

"It may seem that quarrying is a strange business for a woman, but why shouldn't women run quarries?" asked Mrs. Greaves. "Of course I have a foreman and plenty of men workers to assist me, but I go into the quarries myself and inspect the seams and direct the methods to be used in getting out the sand and gravel. Stone has become so expensive that I have developed a plant which makes artificial stones and is doing a good business. I find quarrying is a very fascinating occupation."

## Issues Appeal To Statesmen

Sir Oliver Lodge Urges Curbing of Production of War Implements

An "epoch of danger," in which he claims the world is living, has caused Sir Oliver to issue an appeal to world statesmen to curb the international tendency to produce instruments of destruction.

"Aerial locomotion presents possibilities of overwhelming entire cities in vast destruction," the veteran scientist and leader in spiritualist research, said in a speech.

"It threatens a return to the old days, when populations, women, children, even oxen and asses were exterminated."

## Prussians Eating Horse Meat

Not From Choice But Economic Conditions Make It Necessary

More horse meat is being eaten in Prussia today than at any other time in history, not excluding the war period when horses were slaughtered because there was little other meat available.

The Ministry of Agriculture reports that the increased consumption is not due to a great relish for horse steaks, but to distressing economic conditions. The consumption of horse flesh increased 30 per cent this year over the corresponding period in 1925.

## Notable Vessels Of Former Days

Presentations of models of Snowdrop and Cairnrot on board Cairn-Thompson Freighter, Cairnreik. Seated on the left are Col. W. I. Gear and Capt. John T. Berlin; on the right, Mr. Sam Harris and Mr. Milton Hersey

Montreal shipping men were reminded of the old days when Montreal was formerly popular on the St. Lawrence, and for many years carried the good barque Snowdrop was presented to the Navy League of Canada on the Cairn-Thompson freighter, Cairnreik, by the Cairn Line of Steamships, Limited. This model, together with a smaller one of the Cairnrot, was formally given to the Navy League's president, Mr. Sam Harris, by Col. W. I. Gear, vice-president of the Robert Reford Co., Limited.

The presentation took place on July 27th and attending it were many well-known shipping men and members of the League. Among the guests were Dr. Milton Hersey, Mr. T. W. Harris, Mr. T. F. Trilley, Captain Symons, Captain Millett, of the Port of London Authority, who was visiting the Port of Montreal; Captain Brown, and other commissioners and port wardens as well as members of the Press and officials of the Robert Reford Co.

In the presentation address Col. Gear said that the model of the Snowdrop, export trade and showed how the Cairn line, owners of the Thomson Line, had continued to keep in mind the requirements of the Canadian trade. Every new requirement was met adequately. The model included improvements on each freighter. He reminded his audience that the Cairn line of steamships was the first to introduce refrigeration in the Canadian trade, and from the position of pioneers in cold storage facilities on board ship, had maintained a foremost place in the realm of ocean freight transportation.

Col. Gear reminded his guests of the difficulties under which shipowners in England were operating their lines when he instanced the fact that the Cairnreik, in order to be able to make the trip to Montreal, had been equipped with a special kind of fuel for her coal bunkers. Since the beginning of the strike in May, it has been unable to secure sufficient coal in British ports.

In presenting the models to Mr. Harris he stated they were built by the Cairn Line of Steamships and were standing on the Cairnreik, and presented to the League as mark of courtesy and recognition of the excellent work that that organization. The Snowdrop was formerly popular on the St. Lawrence, and for many years carried the good barque Snowdrop was presented to the Navy League of Canada on the Cairn-Thompson freighter, Cairnreik, by the Cairn Line of Steamships, Limited. This model, together with a smaller one of the Cairnrot, was formally given to the Navy League's president, Mr. Sam Harris, by Col. W. I. Gear, vice-president of the Robert Reford Co., Limited.

## A Youthful Cabinet

Present One Is Youngest of Any Since Confederation

An Ottawa writer asserts that the King cabinet is the youngest Canadian cabinet since Confederation. That is, the ages of its eighteen members average less than those of any other. The average is 33 years, the age of the premier, Mr. Robt. in the oldest minister and he is no patriarch, being only 67. The baby of the cabinet is Lucien Cannon, 29. Mr. Cannon is three years older than Sir Wilfrid Laurier was when he entered the Mackenzie cabinet in 1877, and six years older than Sir Charles Hibbert Tupper was when he entered the Macdonald cabinet in 1888.

## New Air Line Opened

Planes Making Daily Trips From Berlin to London

The first daily air service between Berlin and London started Oct. 15. It will be operated by the German Luft-hansa line, the planes of which are now flying between Berlin and Amsterdam and which continue to Croydon outside of London. The British service to Amsterdam, which has been unprofitable will be discontinued. The only previous air service between London and Berlin was for a few months in 1923 when British planes maintained a tri-weekly service.

Of the numerous Egyptian sphinxes the most celebrated and remarkable is the Great Sphinx of Gizeh. The figure is taken to represent Harmachis a form of the sun god.

New Plutocrat (to manager)—"Here what kind of a waiter's this you've given me? 'E drew the cork o' this champagne so quiet there wasn't a-few dozen people in the room as noticed it!"

The longest railway tunnel in the world is the Simplon, in Switzerland and Italy. It is 12 miles, 485 yards long.

## SUNDAY SCHOOL LESSON

OCTOBER 24

JOSHUA, ISRAEL'S NEW LEADER

Golden Text: Be strong and of good courage; . . . for Jehovah thy God will be with thee whithersoever thou goest. Joshua, 1:9.  
Lesson: Numbers, 27:18-20, Joshua, 1:9.  
Devotional Reading: Proverbs, 2:1-8.

## Explanations and Comments

1. Joshua, Appointed the Successor of Moses. Numbers 27:18-20—Every prophet had an attendant, and Joshua had been the attendant of Moses. We have heard about him in Ex. 17:10-16; 18:9; 24:13; 32:17; 33:11; Num. 11:28; 12:16; 14:6-9; 27:18; 31:7; Dt. 1:38; 31:23. He was one of the twelve sent into Canaan from Kadesh thirty-eight years before this, he must have been about sixty years old when Moses died. He was a trained military leader. Just the man that was needed to lead the Israelites in their conquest of Canaan, and when Moses was about to lay down his command he anointed Joshua as his successor. The new leader's outstanding characteristics was this, he was a man in whom was the Spirit, qualified to carry out God's will. It is interesting to recall that the name "Joshua" is but the later form of the name "Jesus". "When a man and woman have the Spirit, God's work can be done. We can get on without learning, we can, not get on without inspiration. A man with one talent and the Spirit can do infinitely more than a man with ten talents without it. A frail wire, run by the electric current, can do more than massive cables without it. And yet we are multiplying our wires and neglecting the current. We pile up organizations, and neglect the Spirit. That is the first thing God looked for. It is the prime necessity of a powerful and efficient life." (Dr. J. H. Jewett).

Fourteen per cent of the students in women's colleges work their way through school, a survey indicates.

## Bladder Weakness Remedied by Gin Pills

Buffalo man recommends them for kidney and bladder trouble

Gin Pills bring you quick relief from kidney and bladder troubles. They soothe the kidneys and bladder and get rid of that burning sensation. The frequent desire to urinate is overcome; brick dust deposits disappear. You can again enjoy comfort, by day and sound sleep by night. Thousands of people are relieved of bladder and kidney troubles every year. Write for free literature. George F. Dettler, Buffalo, N.Y., says of Gin Pills:

"I suffered from bladder weakness and frequent urination. I had tried other kidney remedies, but got no relief. After taking a box of Gin Pills, I was completely cured. I can now sleep soundly and enjoy my life. I can now sleep soundly and enjoy my life. I can now sleep soundly and enjoy my life."

If you have backache, backache, uric acid, pain in the kidneys, distress, frequent urination or swollen joints, Gin Pills will correct them. Write for a box at all drug stores. The National Drug & Chemical Co., Canada, Limited, Toronto, Canada.

## Popular Montreal Matron Recovers From Long Illness

**Montreal Woman Tells How She Regained Health. Troubles Caused by Nervousness and Stomach Disorders Quickly Relieved. Says Tanlac Deserves All Credit**

Thousands of men and women suffering from a generally rundown condition will get a message of hope and cheer from the experience of Miss Joseph Lefort, 468, Chamblay Street, Montreal, whose quick recovery from a long, serious illness surprised her closest friends. If you never felt quite up to the mark, if you are fagged out, you'll be glad to know about Tanlac and what it did for Mme. Lefort. Here is her story.

"About two months ago, I realized that my condition was far from good. I had spells in which I would tremble all over, and I would feel as if my head would burst. I suffered from severe headaches and would be very sick at my stomach. I was very nervous and unable to sleep. I was recommended to take Tanlac and the first bottle brought such great relief that I have been taking it ever since. I have gained weight, my nerves are in better shape and I get up in the morning feeling rested and refreshed. I not only got my health back but go about the housework with vim and energy. Because Tanlac has done so much for me, I take pleasure in recommending it to all."

Mme. Lefort is only one of thousands who have found happy relief from pain and gained new strength by taking Tanlac. Why not heed their advice? Keep well, keep young and healthy—take Tanlac. Get your first bottle of Tanlac from your druggist today and see how much it will help you.

CHAPTER XVI.  
John

To make Joanna's appearance a dramatic entrance, openly stage-managed, evidently was an impromptu impulse of Yvonne's. Joanna had expected nothing of the kind. She waited, unsuspecting, in her white and gold bodice. Yvonne had said: "Give them time to decide who's to be nice to who. Then the few in whom you will be most interested will take you in hand."

When a maid hurriedly posted to catch Yvonne's signal, informed Joanna that she was expected, she hurried down the stairs from the upper floor and onto the balcony, from which the grand staircase descended. She was framed in the doorway when she realized that the people in the great room below were waiting for her, Joanna, their faces uplifted.

She caught her breath. A hand few nervously to her throat. She would have drawn back, but instantly realized that she was too late. Yvonne caught her glance and with a nod reassured her.

Then exhilaration leaped through her stirred pulses. The carnival spirit of the scene below reached up and encompassed her. A new ecstasy of happiness quivered at her fingers, tinged in her toes with the vibrant warmth of her. This was to be her setting, symbol of the electrifying festival of which her life was to be forever shaped! These people, people of her new world, were waiting for her there to welcome her among them and their kind! Bravo! Bravo came into

her eyes and arched lips dimpled her cheeks. She moved over to first step between the curiel and carrying staff posts and stood for a moment perfectly still. Then she blew a kiss down the room.

"A lovely coming out of her shell," Brandon murmured.

her eyes and arched lips dimpled her cheeks. She moved over to first step between the curiel and carrying staff posts and stood for a moment perfectly still. Then she blew a kiss down the room.

her eyes and arched lips dimpled her cheeks. She moved over to first step between the curiel and carrying staff posts and stood for a moment perfectly still. Then she blew a kiss down the room.

"A lovely coming out of her shell," Brandon murmured.

to her companion long enough to be overheard:

"One of today's best points is that he can love a woman as he has carried that one, without musing her." John's face grew a little whiter, and his fingers twitched nervously. He saw that when Teddy had put her down his arm (inspired for a moment around the girl) that he held her close to him while he whispered and that Joanna brushed his cheek with the back of her hand playfully. The woman whom John had overheard spoke again:

"Teddy is beginning a campaign. He always does it with a whisper. Who ever this girl is, and whatever she is, there are some people here tonight who will hate her—Teddy shows signs of following up that little tableau."

John turned to look at the speaker. She returned his glance and started at what she saw in his face. Then she was amused. She said something to her companion, a man who quite evidently would not be her husband. He surveyed John curiously. He spoke to his companion in a low tone. "Yes, you are probably right. He's in love with the girl. Odd looking chap, but one who would make trouble if he felt like it."

Both Brandon and John sought to make their way to where Joanna stood, the centre of a throng of men and women, some fascinated, as was Teddy Dormister, by her anxious beauty and freshness, and others paying their eulogistic due to Yvonne by fawning upon her protegee. But neither reached her side before she was whisked into a dance by Lord Teddy. He surrendered her, after a few turns, to others who pressed forward for the privilege.

Men were fulsome in their compliments. The mystery of her was the subject to which everyone alluded along the route of intimate, personal things, things the men murmured softly while she averted her face from them to the music, or whispered so that her ears alone caught them. It had been decided by Yvonne that the history of her sudden shower of gold from an unknown benefactor should not be told. Kenilworth and Brandon, and the few others of Yvonne's intimates who knew, agreed to keep the secret. Dormister had not been taken into anyone's confidence as to Joanna's wealth. The men who made their deceptions to her, and the women who were curiously pleasant, soon gave up their efforts to fathom her after failing to get a hint as to her fortune.

When a score of toasts in punch had been drunk to her, she had flitted from one pair of arms to another in the dancing. Joanna became conscious of an unfamiliar quality in the murmured admiration heaped upon her. She had been accustomed to the overt, fawning of the boys in her old world, and their frankly said and usually sincerely meant flatteries, "You're a swell girl!" was what she had learned to expect. Her acknowledgment of the compliment was prompt and perhaps, "Is that the line you've got?" she knew the danger of the threat, or the safety, in every complement, as her dancing boys paid them, and usually she guided them well away from the edge. But now she felt that her wit must grapple for new understandings. The men who captured her for a few fleeting moments sung their adoration in a more elusive melody. The words of their praises seemed harmless; but she sensed new meanings. Roddy Kenilworth took both her hands and held her a little way from him, and looked at her. All that he said, was: "You are very pretty tonight. That dress you are wearing must have been created just for you by a really great artist."

Nothing more. Yet Joanna was conscious that she trembled, and con-

tinued to tremble. She knew the danger of the threat, or the safety, in every complement, as her dancing boys paid them, and usually she guided them well away from the edge. But now she felt that her wit must grapple for new understandings. The men who captured her for a few fleeting moments sung their adoration in a more elusive melody. All that he said, was: "You are very pretty tonight. That dress you are wearing must have been created just for you by a really great artist."

Nothing more. Yet Joanna was conscious that she trembled, and con-

tinued to tremble. She knew the danger of the threat, or the safety, in every complement, as her dancing boys paid them, and usually she guided them well away from the edge. But now she felt that her wit must grapple for new understandings. The men who captured her for a few fleeting moments sung their adoration in a more elusive melody. The words of their praises seemed harmless; but she sensed new meanings. Roddy Kenilworth took both her hands and held her a little way from him, and looked at her. All that he said, was: "You are very pretty tonight. That dress you are wearing must have been created just for you by a really great artist."

Nothing more. Yet Joanna was conscious that she trembled, and con-

tinued to tremble. She knew the danger of the threat, or the safety, in every complement, as her dancing boys paid them, and usually she guided them well away from the edge. But now she felt that her wit must grapple for new understandings. The men who captured her for a few fleeting moments sung their adoration in a more elusive melody. The words of their praises seemed harmless; but she sensed new meanings. Roddy Kenilworth took both her hands and held her a little way from him, and looked at her. All that he said, was: "You are very pretty tonight. That dress you are wearing must have been created just for you by a really great artist."

## Treat Colds Externally

For sore throat, bronchitis or deep chest colds, rub Vicks VapoRub briskly over throat and chest and cover with warm flannel.

Vicks acts in two ways—both direct: it acts like a stimulant and makes the throat and chest warm and moist. A quick relief for the cold troubles of all the family.

**VICKS VAPORUB**  
Over 21 Million Jars Used Yearly

sculous, too, that she had been faithful to the present day mode which required that underneath that dress she wear but a single garment, so delicate and sheer that it almost blended into her skin. Roddy said only that she was pretty and her dress becoming. Yet she understood that the man who spoke and who had banded her but a few nights before with the threat of his pursuit of her, already wanted to take her slim body into his arms and crush it. She decided she would have to strengthen her battle-ments. She had learned to make her lips provocative, and use her knowledge boldly and sanely. She had the sense that in this order of life, so different from the domain of the silk counter and its flirtations, it was much more dangerous to be provocative.

(To be continued)

## Little Helps For This Week

Him that cometh to me I will in no wise cast out.—John vi. 37.

The beckoning of a Father's hand we follow.

His love with me is there, No curse, no care.

—Edward Rowland Sill

The painter smiled at her in return, and said "Had you any children in the old time?"

She paused a little before she replied: "I had children in love, but none that were mine."

"Is the same?" he said.—"It is the same; and if one of them had stung against you, injured you, done wrong in any way, would you have cast him off, or what would you have done?"

"Oh!" said the little Pilgrim again, with a vivid light of memory coming into her face, which showed she had no need to think of this as something that might have happened, but knew, "I brought him home; I nursed him well again; I prayed for him night and day. Did you say 'cast him off,' when he had most need of me? Then I never could have loved him."

"Then you think you love better than our Father," he said.

—H. O. W. Oliphant.

As a verminiferous effective preparation in the Mother's Gray Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

## French Premier Has Double

Man Honored in Paris Cafe Was a German

M. Polnare, the most noted men, has his double. He has even several. The most striking came to a boulevard cafe. He had the same closely trimmed, pointed white beard, the same vigorous carriage, the same piercing glance. Only the waist line was a little more pronounced than that of France's Premier, but so little that several of those present really believed that it was M. Polnare himself and stood up to honor him. Then the man began to talk. He spoke German.

Our Democratic Duke

The Duke of York is one of the most democratic of the Royal Family. It is not on record that he has ever ridden on top of a London bus, but he has been a passenger in a country motor coach.

A camera has been made for the Army Air Service which will take photographs at an altitude of 35,000 feet. The camera is 4 feet long and weighs 100 pounds.

Taxes in the United States today are \$15 a year for each family of four and with \$75 in Great Britain, \$35 in France and \$26 in Germany.—Wilmington, Mass.

No poisonous reptiles and few wild animals are to be found in Japan.

In his brief lifetime the silkworm spins about 4,000 yards of thread.

Minard's Liniment for chapped hands.

## Made Whole Suit in Record Time

Remarkable feat accomplished by Miss Wilkison in 1924

The story of a woman's feat—a woman of the days of 1864—has been told by a correspondent of the Toronto papers, brought to public interest by the fact that a woolen overcoat was "made" in such record time at the National Exhibition.

Emilie Wilkison, living near the village of Hawley, Ont., had a brother who volunteered to enlist in the Northern army. He received notice to report at a certain place in the United States at a certain time. His wardrobe, however, was scanty, and he required a suit of clothes in which to make the journey. The Wilkisons were a thrifty family and bought nothing which they could make themselves. They had a flock of sheep in which were several black ones. Emilie caught one of the black sheep (possibly two), sheared the sheep, washed the wool, carded the wool, spun the wool, wove the wool into cloth, cut the cloth and made a suit of clothes for her brother. All the work from the first to last was done by her in her home. In one week from the time the sheep was caught, the brother, wearing the suit of clothes, was on his way to the United States.

## CHILDREN LIKE

## BABY'S OWN TABLETS

Because They Are Tasteless and Are Easy to Take

One of the strongest points in favor of any medicine for children is that it is so agreeable that the mother does not have to force it down the little one's throat.

Baby's Own Tablets have no drug taste, may be crushed to a powder if desired, and babies like them. They are perfectly harmless and do not opiate or narcotic. They sweeten the stomach and remove the cause of fretfulness.

Mrs. Arthur Charlebois, Pawtucket, R.I., says: "I have found Baby's Own Tablets to be the best remedy for a safe remedy for stomach disorders in children. Our little boy had been long and carried but these tablets worked more effectively without the severe griping. I can recommend them to all mothers of little children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Must Do Their Share

Turkish Men Ordered by Governor to Work in Fields

On a tour of investigation among the villages of the Black Sea region, the Governor found that farm work was being done by women, while their husbands and masters sat in the village coffee houses smoking and gossiping.

The Governor gave orders to the mayor of each village in this district, that every able bodied man should be forced to work in the fields during the day, and that the women should be allowed to sit in the coffee houses during the hours when the women were toiling.

Feet sore.—Minard's Liniment.

## Dog Liked Hospital

Dr. W. H. Geppert, dentist of Bowling Green, Ohio, refuses to be further responsible for the death of "Pal" his pet collie. The dog, recently treated by a veterinarian for tonsillitis, liked the treatment so well it has been visiting the hospital daily, running a charge account for services received.

Some men can't even have to have brain fever.

**Items of Local and General Interest**

Eugene Dobb, aged United States socialist leader, is dying.

The new United church at Camrose was dedicated on Sunday last.

The Prince of Wales is liable to be driven to marriage in self defence.

It costs \$130 to educate a high school pupil at Pincher Creek for one year.

Carl Smith, an experienced hunter, states that he could smell a Moose a mile away.

No need of special services for golfers if we'd all settle down to pray for them.

The new Great Northern hotel at Waterton Lakes will be named "Prince of Wales."

Calgary hydro-electric companies an extension down the Alder line to Lethbridge.

The two Fernie candy kings, Walde and Edgar, were among the visiting Elks from Fernie last evening.

Tom Masson says: A movement to abolish poor houses is now bruited. The space is needed for garages.

The F. M. Thompson Co. announce a special showing of furs—coats, collars, etc.—tomorrow and Saturday.

The Fernie's annual ball, held in the opera house last night, was largely attended and a thorough success.

"Dick," little son of Mr. and Mrs. L. L. Morgan, was operated upon for appendicitis at the local hospital last night.

The interior of the P. Chardon Cafe is being decorated at the hands of Mr. A. E. Blais, and is looking quite attractive.

An old broker says that the reason some stocks go up and down so regularly is that being mostly water they rise and fall with the tide.

It's got so now that early morning services in some of our Canadian cities merely suggest Sunday golf to many who never would have thought of it.

William Nickle has resigned from the Ontario government. Now we have an opportunity of sympathizing with Howard Ferguson in the loss of a nickle.

Mr. B. O. Morrow, former manager of the Union Bank at Cowley, delivered a lecture on "Currency and Exchange" to a Magrath audience on Sunday night last.

Bob Fox, claimant of the Canadian light heavy-weight championship, won the decision over Roddy McDonald in the last round of a ten-round go at Drumheller on Monday.

The Harvest Thanksgiving service at St. Luke's church on Sunday night last was well attended. The church was decorated with a profusion of fruits, vegetables and shrubs and was most attractive. Mrs. Ashbridge, of Coleman, rendered two solos in a very pleasing manner.

Nearly 200,000 acres of homestead land have been taken up by new settlers in the Dominion lands area covered by the Edmonton agency in the nine months since the beginning of the year. The total grants were 1240, including soldiers' grants, as compared with 741 filings for the same period in the previous year.

The Truro News remarks that an "Irish cobbler potato weighing 18 ounces was very unusual and that the editor had been presented with nine tubers that tipped the scale at slightly over nine pounds." Last week in High River we saw on exhibition fourteen potatoes, grown in Alberta, that tipped the scale at 40 pounds, and one other potato weighing 24 pounds.

Mrs. L. C. McKinney has been re-elected president of the W.C.T.U.

A one-armed man can fish, but he can't tell about it with any satisfaction.

Papers say that Mike Murphy is after a championship boxing bout with Jack Reddick.

The East Kootenay school teachers' convention will be held at Fernie October 29th and 30th.

Ratepayers of Calgary will be called upon to pay a hospital deficit for the year of approximately \$125,000.

Blairmore has so many elk, moose and the like now that there is no more occasion to visit Banff to see a menagerie.

Carl Carlson and family are moving to Waterton Park. Their residence here has been taken over by Mr. S. G. Bannan.

Mrs. Keiser, of High River, was in this district last week for the purpose of organizing local branches of the Catholic Women's League.

Dr. J. S. Hynes is now located in beautifully appointed offices at Claresholm and is building up a substantial medical and surgical practice.

Chicago is going to arrest every gangster in the city. That means that ninety per cent of the buildings in Chicago will have to be converted into jails.

The Ladies' Aid of the United church are holding a Halloween tea and pantry sale on Saturday, October 30th, in the Lodge Hall, from 3 to 6 p.m.

The Redcliff Review remarks: Premier King has one Irishman and eight Scotchmen in his cabinet. As a way to end things up, that's about the right proportion.

Mr. W. H. Moser, violin teacher, has changed his place of residence from Pincher Creek to Hillcrest. Mr. Moser has a large number of pupils throughout this district.

Rev. E. G. Hansell has resigned the pastorate of Westbourne Baptist church, Calgary, because he cannot support the church's interpretation of baptism by water.

The coroner's jury at Drumheller added a rider to their finding in connection with a recent fatal accident in the mine there, that all underground miners should speak English.

Thomas Hammond, well known farmer of the Pincher Creek district, died on Monday from injuries received by being crushed between a separator and a tractor on Friday last.

The swift schooner Columbia is champion of Gloucester's fishing fleet, winning on two occasions against the Henry Ford. Capt. Pine, of the Columbia, has issued a challenge to the winner of the Canadian fleet.

A States car, travelling east on Victoria Street on Monday forenoon, collided with the Knapman service truck at the intersection of Seventh Avenue. Both vehicles were slightly damaged, but were able to proceed on their way.

Mr. C. F. Sedgwick, Nelson representative of the Canadian Oils Limited, was a visitor here on Sunday, returning from a business visit to Calgary and Lundbreck. Mr. Sedgwick is suffering somewhat from injuries received in an auto accident recently.

Miss Birdie McCarthy, of Twin Butte, is believed to be the first lady to kill with her own rifle a Rocky Mountain sheep. This was accomplished a couple of weeks ago in the mountains northwest of here, when she and her brother each landed a big one.

Canada has her police crowded. Here we have ours stuffed—Judge.

Our idea of efficiency is the way the Charleston reduces a stiff collar.

A grand bazaar will be held under the auspices of Vinny Chapter, O.E.S., on Wednesday, December 1st.

The Edgmont Commercial Grads, ladies' basketball team, won a series over Oklahoma by a score of 32 to 9.

Part of Coleman went to Fernie for the Elks' do on Monday night. The rest took in "So This is London" at the Blairmore opera house.

Mike Moxon, former resident of Frank and Blairmore, is now the successful and most genial proprietor of the Oxford hotel at High River.

C. A. Davidson, provincial highways commissioner, held a conference at Crows' Nest last week and with B.C. road officials, when certain relocations on the Red Trail were discussed.

Ye editor was in High River last week and when the geese were reported "flying high" he was commissioned by a gang of hunters to go with them, and several times we had to duck our head.

Superintendent Jamieson, of the C.P.R. Lethbridge to Crows' Nest division, is an ardent sport and was in High River last week taking a keen interest in the dog field trials, accompanied by his district engineer, Mr. H. K. Miles.

Coco-Cola was put on the market in 1886. The first twenty-five gallons of syrup sold for \$25. That money was immediately invested in advertising. Recently the business changed hands. Twenty million dollars was the price. The Wall Street Journal alluded to it as \$20,000,000 worth of goodwill.

Recently two full-grown men decided to settle a difference through the fight medium and left a beer shop hand-in-hand for a square across the way. Hand-in-hand they continued to the scene of hostilities, followed by quite a number of interested parties. When they reached their destination, the fight was settled by a police officer, who arrested both of them.

Jack McDonald, the genial proprietor of the Empire hotel at Coleman, attended the opera house here on Monday night and thoroughly enjoyed the Allen Players in "So This is London." Jack was caught in the act of yawning at one particular stage of the game and while his head appeared wide open, a young lady on the stage remarked: "Gosh, he's taking the whole show in!"

A States paper remarks: If you want to be richer than Ford, find a way, as the oil supply dies out, to utilize and extract easily the oil stored up in shale rock. Bonfils, of the Denver Post, tells us that Colorado alone has 2000 square miles of shale, a gigantic 900,000-acre oil farm, bearing at least 79 million barrels of oil. And the shale is piked up in the air in mountains, in thin layers, like the soil upon a mountain shelf, easy to mine. The oil in that shale is worth easily ten times as much as Ford or Rockefeller.

ANNOUNCEMENT!  
 Mrs. Altematt's Orchestra is now located in Blairmore and will be open for engagements after October 25th. At present see Maurice Bond (phone 301) for bookings.

ANNOUNCEMENT!  
 Mr. Paul Barattelli wishes to announce that he has again taken over the blacksmith shop until recently operated by Mr. Schweigert and will be ready to give his best services to his old as well as new customers.
